

Weather Forecast

Saturday — Cloudy in morning, clearing by noon, little temperature change. Temperature, noon, Friday, 54.

English Cricket

LONDON (Reuter)—Yorkshire, last year's county cricket champion, today ended the run of four straight defeats which has dropped the team far down the list in the standings, but could obtain only a draw with Kent. Gloucestershire and Middlesex, not playing today, remained in a tie for first place.

Today's results:
Gloucestershire vs. Leicestershire. Match drawn. First innings: Gloucestershire, 175; Leicestershire, 123. Second innings: Gloucestershire, 21 for 3.

Northamptonshire vs. Essex. Match drawn. First innings: Northamptonshire, 303 for 9, declared; Essex, 231. Second innings: Northamptonshire, 182 for 5, declared; Essex, 194 for 5.

Warwickshire vs. Lancashire. Match drawn. First innings: Warwickshire, 207; Lancashire, 295. Second innings: Warwickshire, 160 for 7. Worcestershire vs. Hampshire. Match drawn. First innings: Worcestershire, 155; Hampshire, 239. Second innings: Worcestershire, 278 for 5, declared; Hampshire, 88 for 4.

Yorkshire vs. Kent. Match drawn. First innings: Yorkshire, 79; Kent, 244. Second innings: Yorkshire, 111 for 8.

Somerset vs. Nottinghamshire. Match abandoned as a draw; no play today. First innings: Somerset, 171; Nottinghamshire, 132. Second innings: Somerset, 118 for 6, declared.

Shingle Mill Burns

BELLINGHAM (AP)—The Lake Whatcom shingle mill of the Columbia Valley Lumber Company was destroyed by fire Thursday night. The upright cedar-cutting plant was operated formerly by Bloedel Donovan mills. The loss, not yet estimated, is covered by insurance.

Signs of Berlin Business Recovery

Business is on upswing in Berlin as many big department stores have cleaned up the ruin of war and opened again. The wrecked Wertheim store, shown here, is now functioning again but business is restricted to the ground floor.

Europe Split In 2 By U.S. Aid Plan; Slavs Withdraw

Today's Sports Western Team For Racing At Vancouver Davis Cup Tennis Trials Announced

Carl Brand, president of the British Columbia Lawn Tennis Association, announced today that J. Skelton, W. Stohlberg, H. Jeffery and D. Hodges had been named to the western Canada tennis team which will compete against the eastern Canadian team here next week.

The West-East Davis Cup trials will be held at Victoria Lawn Tennis Club and from the two teams Canada's Davis Cup team will be chosen.

Brand also announced that there is a possibility that Hank Bennett may be added to the western team.

Favorites Beaten In P.N.W. Tourney; Vancouverite Wins

PORTLAND, Ore. (AP)—Only one thing was certain today as the Pacific Northwest Golf Association tournament went into the semifinal round—the re-tourney favorites won't be playing.

Shooting for final berths in today's 36-hole play were Ernie Johnson and Chester Gordon, two Seattleites, paired against each other, with Portland's Ray Weston matching strokes with Doug Bajus of Vancouver, B.C. Each pulled through with an upset triumph in Thursday's quarter-finals.

Bajus toppled the Montana state title, Guy Owen, of Missoula, 3 and 2.

Among those who worked their way into the semifinals of the various flights of the men's tourney were two Canadians, Gordon Verley of Victoria in the sixth flight and E. Forst, Vancouver, in the eighth flight.

Forst is opposed by Jarrett Jones, Portland. Thursday Forst advanced through the quarter-finals by measuring Bud Haupt, Portland, 3 and 2. Jones meanwhile was winning on the 21st green from Bert Snape, Victoria.

Sea Breeze Topples Home at Sea Breeze

Northeast winds and heavy seas on Lake Ontario added a big blow to the resort town of Sea Breeze, near Rochester, N.Y., tumbling many cottages into the water like this one. The rocking chair seems to be the only item left in one piece as this resident sadly views the wreckage.

4 Men Executed In New York Prison; 1 Shouts Innocence

OSISING, N.Y. (AP)—Four men, one shouting "I am innocent" as he was strapped into the electric chair, were executed just before last midnight at Sing Sing prison. The institution's last quadruple execution had been eight years ago.

Salvatore di Christofaro, 35, of Buffalo, convicted of killing Joseph A. Serio in a fight over a woman last year, died first, at 11:03 p.m. He had said nothing as he entered the execution chamber.

Edward Jones, 22-year-old negro of New York, was the condemned man who protested he was innocent. Jones was one of two men convicted of slaying Gustave Winkelman, a grocer, in a hold-up June 27, 1945. He was pronounced dead at 11:09.

Arnold Sims, 23-year-old negro, also died for the Winkelman killing. Joseph A. Serio (Nowell) 108

U.S. Faces Possible Meat Supply Cut With Higher Prices

WASHINGTON (AP)—The United States is facing the prospect of possibly 10 per cent less meat by early 1948.

Such a reduction would be accompanied by higher prices if consumer demand should continue strong.

These possibilities are based on an Agriculture Department crop report Thursday forecasting a sharp drop in the corn crop as a result of one of the worst planting seasons on record.

The corn crop, which is the basic raw material for meat, dairy and poultry products, was forecast at 2,612,800,000 bushels. This compares with last year's record of 3,287,927,000, the government's goal of 3,000,000,000 bushels and a 10-year average of 2,639,927,000.

Officials said a crop of around 2,850,000,000 bushels of good-quality corn would be needed to maintain meat production at the present level of 153 pounds a year for each consumer.

A crop of the size indicated, officials said would require a cut in meat production of about 10 per cent, or about 15 pounds a consumer. This still, however, would leave supplies at about 138 pounds a person compared with the prewar average of 126 pounds.

Officials are not ready, however, to accept the corn forecast as final. Still holding hopes for a harvest of at least 2,850,000,000 bushels, they noted that acreage planted to corn is only 4.9 per cent below last year when the record crop was produced, despite adverse planting season weather.

Income Total
\$178,000,000,000
WASHINGTON (AP)—Increased wage and salary payments boosted personal incomes in the United States during May to a record high, equivalent to an annual rate of \$178,000,000,000, the Commerce Department reported today.

Canada Spending
Heavily For Unrra
OTTAWA (CP)—The Canadian Commercial Corporation, government-owned purchasing agency, placed \$152,000,000 in contracts for Unrra during the 11-month period ended March 31.

The corporation's report, tabled in the Commons today by Trade Minister MacKinnon, disclosed that since February 1, 1947, it had taken over the additional duties of purchasing agent for the Dominion's armed forces.

This was formerly done by the Reconstruction and Supply Department. Orders totaling \$11,000,000 had been placed since February.

Included in the orders for Unrra were \$1,000,000 worth of radium and radium accessories for Europe and China, \$4,000,000 in automotive parts, \$4,000,000 in steel bridging, \$10,000,000 in chemical fertilizers and \$15,000,000 in foodstuffs.

Solve Dust Mystery
NELSON, B.C. (CP)—News that northwestern Oregon and eastern Washington had suffered their worst "duster" in a dozen years apparently solved a mystery here today.

Clouds of dust hanging over the city this morning had settled by noon, but during the morning hours the dust haze limited visibility. A heavy windstorm was felt in the early morning hours.

Report Soviets Fear Parley May Bring Isolation

PARIS (CP)—All the Slav states were lined up solidly with the Soviet Union in boycotting the European recovery conference and to-night it appeared that Finland would also decline the British-French invitation.

The Finnish radio reported today that a communique tonight would make official the Finnish refusal to participate which already had been widely predicted. The conference is scheduled for 11 a.m. tomorrow.

Fourteen countries have accepted the invitation to the conference. Seven others—Yugoslavia, Poland, Romania, Hungary, Bulgaria, Albania and Czechoslovakia—have rejected it.

Non-Communists in Prague held that Czechoslovakia's 11th hour reversal of her previous acceptance dramatized the situation of the eastern European states and demonstrated that heavy pressure was applied from Moscow. The leftist Prague press said the withdrawal was dictated by the conviction that the talks would be aimed at the economic isolation of Russia.

The Slav states have charged that the Marshall Program would impose political conditions on countries aided, but in London today U.S. Secretary of Commerce W. Averell Harriman rejected this contention, saying "there has never been any discussion in the (U.S.) government of any political conditions."

Foreign Minister Georges Bidault of France will press for full publicity for the sessions, the Foreign Ministry announced. The ministry said that in his welcoming speech to the delegates tomorrow the foreign minister would propose that reporters and photographers attend all sessions.

Senate Reform Big Item Of Day In Parliament; C.C.F. Move Fails

OTTAWA (CP)—Law-making developments came fast on Parliament Hill Thursday—Senate reform, Dominion-Provincial relations and supplementary estimates—in fact there seemed no end to them in a session which once had hopes of prorogation this week.

That hope vanished as each passing item brought a successor, plunging Parliament deeper into the controversial issues of the day, with immigration looming as the latest snag. It arose in the dying minutes Thursday night and a major debate is promised.

Senate reform, proposed periodically since 1868 but never carried out, proved the big item of the day as the C.C.F. opposed a government bill to increase indemnities for Senate leaders, got verbally spanked by Prime Minister King and lost a Commons division on the issue.

It had repercussions in the Senate, where irate leaders moved to implement changes for closer liaison between the two Houses of Parliament.

MOTION OF KNOWLES

The whole question of Senate reform worked its way into a discussion topped by a motion from Stanley Knowles, C.C.F., Winnipeg North Centre, that would

give the bill a six months' hoist, tantamount to killing it.

Mr. King welcomed a vote. The morning debate arose over a measure that would increase the sessional indemnity of Senator Wishart Robertson, government leader, from \$6,000 to \$13,000 and of Senator John Haig, Progressive Conservative leader, from \$6,000 to \$10,000.

Mr. King argued that the increases were needed to allow them to discharge their duties and, in attacking C.C.F. arguments that the Senate was undemocratic, assailed that party "for thinking it has the only honest and righteous men in the country."

John Bracken, Progressive Conservative leader, said the Senate should be an elected body and that the term of office should be defined. His party would support the bill if the government would lay some basis for reformation of the Upper House.

The vote against the six months' hoist motion was 102 to 60.

It split the Progressive Conservative ranks. While Mr. John Bracken and the majority of his followers voted for the C.C.F. motion, seven other Progressive Conservatives voted with the government. They included George Black, P.C., Yukon.

The Social Credit group supported the C.C.F.

The bill was given second reading.

JOINT COMMITTEE

Before the vote was taken, Mr. King pronounced himself in favor of a suggestion by Mr. Bracken that a joint parliamentary committee be established to study Senate reform.

He also disclosed that he already had suggested to Senate leaders several methods of reform, including a proposal that cabinet ministers be allowed to appear on the floor of the Upper Chamber to answer questions during passage of government legislation.

Some of those reforms already were under study by the Senate leaders.

In the Upper Chamber, Senator Robertson's ire stung and his "indiscretion dissipated" by C.C.F. attacks, asked the Senate for "speedy consideration" of a move aimed at diverting to itself some of the legislation that was making such "tremendous demands" on the Commons.

The government leader, after referring with heat and with disregard of House rules to Commons' statements by Mr. Knowles that the Senate's role was "useless," revived a proposal that has sporadically been suggested since 1868, the last time 13 years ago, but never carried through.

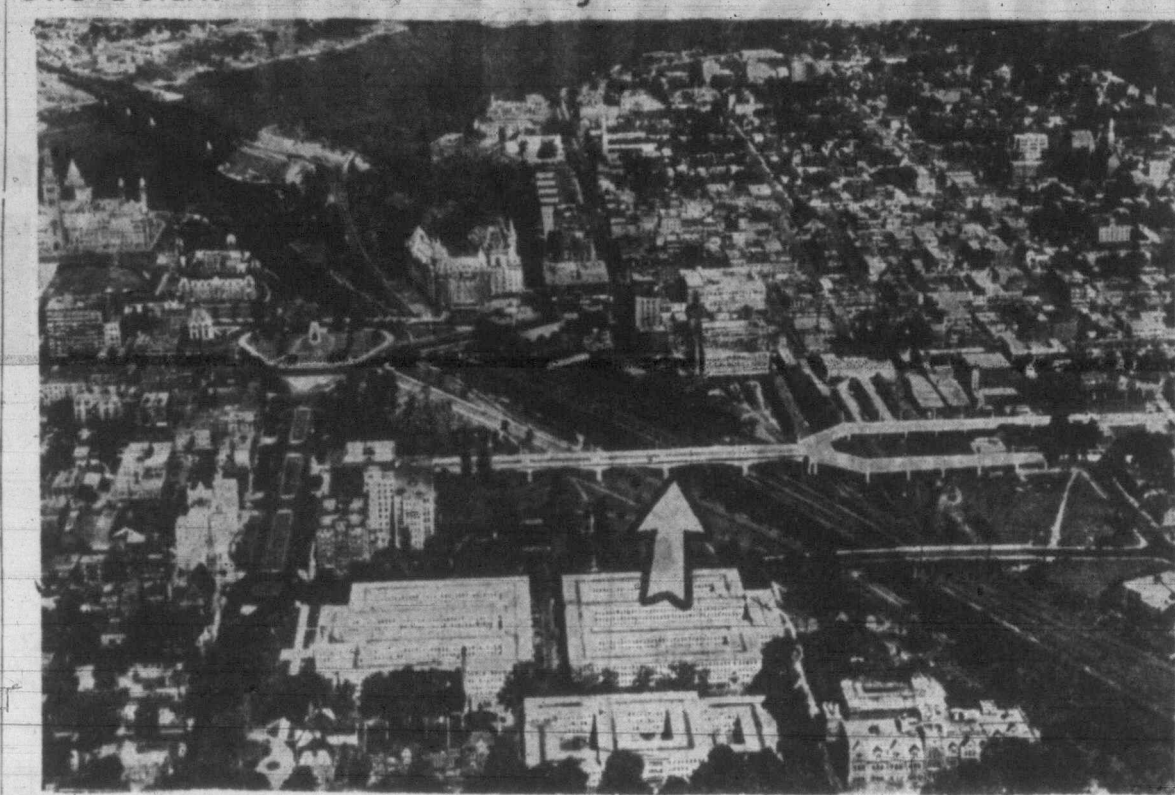

It would allow cabinet ministers to pilot government legislation and debate it in the Senate where it originated there. This, Senator Robertson said, might be the answer to contentions that more government business should be initiated in that chamber. If it didn't he was willing to try others.

Duncan Elks Raise \$563 For 'Blue Baby'

DUNCAN, B.C. (CP)—A total of \$563 has been raised by the Elks' Club here to pay for the recent blue baby operation in Victoria on Carol Bell, 10-year-old granddaughter of Mrs. Dyson Bell of Duncan.

Carol's operation was the first of its kind to be performed in Victoria.

Ottawa Starts On 25-Year-Face-Lifting Plan

"Tuning Fork" bridge over the Rideau canal will be first step in long-range plan to beautify and improve the federal district in Ottawa, Prime Minister Mackenzie King told the House of Commons. New bridge, seen drawn into aerial view, would relieve traffic bottleneck around the National War Memorial. Preliminary surveys on the proposed bridge are expected to start this year. Authorities estimate it will take 50 to 75 years to complete beautification plan.

Jews In Britain Warn Stern Gang

JERUSALEM (AP)—Tel Aviv police today opened a letter addressed to "the head of the Stern Gang" and found inside a note warning the Jewish underground organization against further killing of British soldiers. The note was signed "Jewish servicemen in Britain."

"Further killing of British soldiers in Palestine," the letter declared, "may result in arousing revenge feelings among their former comrades in Britain."

British military authorities meanwhile lifted an out-of-bounds order which for the last two weeks had banned British soldiers from Tel Aviv streets while off duty. The order was invoked after three soldiers had been shot and killed by unidentified persons.

Indians On Move

KARACHI, India (AP)—The Karachi correspondent of the Statesman of Calcutta and Delhi reported today a spontaneous exchange of population was about to begin between India's projected two new dominions—Pakistan for the Moslems and Hinduistan for the Hindus.

He noted that landlords and businessmen anxious to get out of "hostile" areas were ready to exchange properties and businesses and that newspapers were full of advertisements seeking such exchanges.

M. Campbell, 93, Dies

Michael Francis Campbell, a native of Boston who had lived in Victoria for more than 60 years, died Thursday at the age of 93, in St. Joseph's Hospital.

Requiem mass will be sung at Our Lady of Lourdes Church Saturday morning. Interment will be at Ross Bay Cemetery in the family plot.

W. J. Fraser, D.S.C., wishes to announce the opening of an office for the practice of chiropody, at 201 Pemberton Building, B 3252.

Canada's Forces Cease To Be On Active Service Sept. 30

OTTAWA—Naval, military and air forces of Canada will officially cease to be on active service Sept. 30. The order was announced by Hon. Brooke Claxton, Minister of National Defence.

Eight years and one month will have elapsed between the effective date of the stand-down order and the day, Sept. 1, 1939, when Canada's armed forces were placed on active service; although war was not declared on Germany until Sept. 10, 1939.

Recently, in the House of Commons, Mr. Claxton said the termination date now set as Sept. 30, would be marked by appropriate ceremonies, "particularly to recognize the part played by Canada's reserve forces in our total war effort and to emphasize the great part the naval reserve divisions, the Canadian army reserve force and the air force auxiliary squadrons can, and we trust, will, play in the postwar forces which should the need

arise again will be available to serve our country."

The theme of these ceremonies will be that the essential place of the reserve forces in Canada's national life, in both peace and war, calls for strong support in every community.

The order terminating active service recognizes the long period elapsing between cessation of hostilities—May 9, 1945, in the case of Germany and Aug. 15, 1945, for Japan—and the signing of the peace treaties. As a result, Canada still remains legally in a state of war with various countries, but it has been found expedient that the armed forces shall be declared no longer on active service.

The date, Sept. 30, 1947, coincides with that set for the final disbandment of all remnants of Canada's wartime forces and the interim organizations that followed it. Henceforth, only men belonging to the newly constituted regular forces will serve full time.

Atomic Energy Commission To Report On Organization

LAKE SUCCESS (CP)—The second report of the United Nations Atomic Energy Commission to the United Nations Security Council will deal principally with the organization and function of a world-wide atomic control agency.

It will do little toward smoothing over Russian-United States differences.

These predictions came from authoritative sources as the atomic delegates began meeting regularly to discuss their second report, which must be handed in before the General Assembly meets in September.

The first report, given to the Security Council last Dec. 31, was written at the insistence of Bernard M. Baruch, who soon afterwards resigned as the U.S. member of the Atomic Commission.

The December report dealt principally with safeguards under which atomic control could be set up. Soviet Russia and Poland refused to go along with the ten other members of the commission in approving it.

They balked chiefly at provisions for waiving the veto on atomic punishments.

NO CHANGE THERE

The basic disagreements have not changed in the intervening months. There is no indication whether Russia and Poland will sign the second report once it is completed, but at least their representatives are taking prominent parts in the current discussions.

The two main committees of the commission, the working committee and the political committee, both have Soviet proposals on their agenda and the Soviet delegation is anxious for the delegates to consider them thoroughly.

The U.S. delegation feels that some work must begin soon on a treaty setting up atomic controls, even if it is just a start. However, the consensus among the delegates is that there still is a great deal to be done before they reach the treaty stage.

Weather

Weather today and tomorrow, valid until midnight July 12:

A southwesterly flow of cool moist Pacific air has brought overcast skies and intermittent rain to the coastal area of B.C. Cloudy skies extend into the interior. Unsettled weather is expected to be general on the coast and temperatures will be somewhat lower than those of the last few days. Widely scattered rain showers will occur over the interior. Some improvement is expected tomorrow.

Vancouver and Vicinity—Lower Fraser Valley—Overcast with frequent rain showers, becoming cloudy by evening. Widely scattered rain showers tonight. Cloudy Saturday with some clearing Saturday afternoon. Winds light. Little change in temperature.

Victoria and Vicinity—Overcast becoming cloudy afternoon and clearing at night. Widely scattered rain showers during morning. Cloudy Saturday morning, clearing afternoon. Winds light increasing to southwest 15 this afternoon and southwest 25 Saturday. Little change in temperature.

Georgia Strait—Overcast with frequent rain showers becoming cloudy with widely scattered rain showers during evening. Cloudy with widely scattered rain showers Saturday morning clearing during afternoon. Winds southeasterly 15 decreasing to light tonight and shifting to northwest 20 Saturday afternoon. Little change in temperature.

West Coast Vancouver Island—Cloudy frequently overcast with rain showers to day becoming cloudy with widely scattered rain showers tonight. Cloudy Saturday morning clearing during afternoon. Winds light becoming northwest 20 on Saturday. Little change in temperature.

Legion Life Member Dies In Hospital

Sydney Herbert Brake, 73, a native of Somerset, Eng., who served in the Great War with the 67th Western Scots, died Wednesday in the Victoria Veterans' Hospital.

A life member of the Pro Patria Branch of the Canadian Legion, Mr. Brake had lived in Victoria for 31 years.

Funeral services will be held Saturday in St. John's Church, at 3 in the afternoon. Interment will be at Colwood Burial Park.

Fined For Overwork

VANCOUVER (CP)—Shore Dry Cleaners Ltd. was fined \$25 on each of two charges laid under the Hours of Work Act here late Friday. J. W. Crooks, company executive, said employees worked one hour a day more than was recorded in the books, but that the 44-hour work week was arranged to give them a full Saturday holiday.

Dream Leads 2 Men To Search B.C. Mountains For Lost Plane

VANCOUVER (CP)—Two friends today were crawling up the faces of cliffs and struggling down into barren valleys in the mountains northeast of Vancouver following a dream which they hope will lead them to the missing Trans-Canada airliner which vanished in the pre-dawn hours of April 28 with 15 persons aboard.

The men, one a veteran prospector and the other a broad-shouldered logger, returned to Deep Cove, B.C., 20 miles north-east of here Thursday for supplies. They refused to give their names and left again immediately for the scene of their lone search.

Mr. and Mrs. Cliff Clubine of Deep Cove, who spoke to them, said the prospector had a dream a week ago in which he saw an unusual fallen cedar tree bearing

peculiar markings. It was pointing to the wreckage of a large, silver-colored airplane.

The man, the Clubines said, discredited the dream until the following day when he stumbled across just such a cedar in the Buntzen Bay area a few miles east of Deep Cove. The man, together with his logger pal, made arrangements for the Clubines to flash lights from their porch each night to give them a bearing, and set out.

"I think they will find something," Mrs. Clubine said.

In Vancouver, increasingly good visibility, coupled with the fact the snow has left the mountains and the ground mist is gone from the valleys has revived the search officially.

"We haven't given up," T.C.A. base manager E. P. (Billy) Wells said.

New Estimates Bring Total For Current Year To \$2,116,967,853

OTTAWA (CP)—Supplementary estimates totaling \$114,989,219 for the fiscal year 1947-48, bringing to \$2,116,967,853 the total estimated governmental expenditures for the current year, are before the Commons.

Tabled Friday night by Finance Minister Abbott, they cover expenses of government departments unforeseen when the main estimates were brought down several months ago.

The largest amounts in the supplementaries are expenditures by the Departments of Reconstruction and Supply, External Affairs and Public Works.

An extra \$43,100,000 is to be voted the Reconstruction Department. This sum includes \$26,100,000 for housing developments and \$10,000,000 to provide for production and transportation subsidies on steel, iron and coal under such terms and conditions as may be approved by the governor-in-council.

FOR JET PLANES

A total of \$4,500,000 is earmarked for research and development of jet engines and aircraft.

The additional vote to the External Affairs Department is \$26,555,438. This includes a \$20,000,000 grant towards post-Unrra relief work in Europe and a \$5,468,000 vote to the International Refugee Organization, previously announced by Prime Minister King.

The supplementary vote for the Public Works Department totaled \$8,191,922, to be used mainly for the repair and construction of public wharves and buildings. This is in addition to the more than \$48,000,000 voted for the department in the main estimates.

Among the items allocated to B.C. are:

Fraser River—Remedial work on Lulu and Sea Islands—further amount required \$32,000; Fraser River (Kirkland Island)—channel protection—(revote) \$38,000; Fraser River and Vancouver Harbor—dredging \$500,000;

Harbors and rivers generally—For maintenance of services, no new works to be undertaken—further amount required \$100,000; Steveston No. 2 road—Wharfage facilities—further amount required \$8,500; White Rock—Wharf repairs \$44,000.

The Justice Department estimates include a sum of \$175,000 to cover expenditures arising out of the royal commission investigation last year into Russian-directed espionage activities in Canada.

Fear 3 Dead In Disastrous Fire At Peterborough, Ont.

PETERBOROUGH, Ont. (CP)—The entire downtown section of this eastern Ontario city was blackened with a pall of smoke this afternoon as firemen continued to battle a \$1,000,000 blaze which is believed to have taken three lives and gutted a wool plant and a flour and seed mill at noon hour.

Missing and believed dead are George Clements, 40, James Hawthorne, 48-year-old timekeeper, and George Colbran, 40, former cricket player. All the men, married, were employed at the Whitaker wool plant, where the fire originated.

The fierce blaze took only seconds to leap into the Dewart Milling Company building, where last year, one man was suffocated and others injured in a similarly spectacular fire.

Recovery of the bodies of the three men was not expected for at least three days as tons of wool, smouldering debris and huge masses of carbon were all that remained of the two plants.

Fire Chief George Gimblett said he believed the three men were dead "as no man could survive such a blaze." When firemen first arrived, shortly before noon, flames shot 25 and 30 feet into the air from the top-story windows of the wool plant.

Wool stocks destroyed in the flames were valued at \$500,000 to \$750,000.

The fire started on the lower floor of the Whitaker building. It spread so rapidly that 20 men were trapped on the upper floors, but all but the three are believed to have made their escape.

The Whitaker Company is a branch of an English wool firm

and is the largest importer of wool in Canada.

The Dewart mill manufactures flour, food and chop.

Chiang's Men Lose Strategic Taian

NANKING (AP)—Tsinan dispatches indicated today the government had lost strategic Taian on the Tientsin-Pukow railroad for the third time this year as Communists renewed their Shantung province offensive.

The government's Central News Agency said the Taian garrison, 33 miles south of Tsinan, "moved to new positions in the face of Red attacks"—the usual way of admitting loss of a city.

Taian has been a pawn in Communist-Government war manoeuvres in Shantung for several months. Neither side, in the past, made any serious effort to defend it, preferring to withdraw when it appeared the enemy possessed superior strength.

College Air Chief

Wing Cmdr. Ross Baxter Ingalls, D.S.O., D.F.C., of Ottawa and Brantford, Ont., has been named senior R.C.A.F. officer at the joint Navy-Air Force college at Royal Roads. Ingalls was one of the first observers to go through the British Commonwealth Air Training Plan, and is a two-tour veteran of overseas bomber operations.

Victoria Doctor Before Court On Narcotic Charges

Dr. James P. Vye, Victoria physician, reserved election and plea when he appeared in city police court today charged by the Royal Canadian Mounted Police under the Narcotics and Drug Act. The cases were all remanded to July 18. City Prosecutor Claude L. Harrison said he would not appear in the case. He had been instructed to tell the court that trial will proceed by indictment.

Bail has been set at \$7,000. The charges allege that Dr. Vye, "being a physician, did furnish Joseph George Downey, with a drug, to wit a salt of morphine, namely morphine sulphate, the same drug not being required for medicinal purposes and not being prescribed for medical treatment on June 16 and 18 of this year and July 10, 1947.

While bail of \$5,000 was set in the first case, the magistrate this morning ordered \$1,000 in one or two sureties in each of the other charges.

Commons Increases Senate Leaders' Pay

OTTAWA (CP)—The Commons today gave final reading to a bill to raise the seasonal indemnities of Senators Wishart Robertson, government leader, and John T. Haig, Progressive Conservative leader in the Senate, from \$6,000 to \$13,000 and \$10,000 respectively.

(Earlier story, page 2).

Foreign Brigade Waits On Border Greeks Allege

ATHENS (AP)—The Greek general staff said in a communique today that Greek troops, despite stiff resistance, were pushing westward 4,000 guerrillas attempting to seize territory near Albania.

Official informants said the guerrillas were fighting along a pitched battle line in 6,000-foot peaks of Mt. Grammos, 15 miles from the Albanian border. War Minister George Stratos said the rebel aim was to establish a Communist state.

The struggle had been in progress since June 27. It is centred 22 miles southwest of Kastoria. Stratos said an international brigade of 2,500 had been spotted in the Yugoslav port of Split.

Previously, the guerrillas had been reported ordered by their leaders not to make frontal war with the army or gendarmerie.

All terrain in the battle area is mountainous. All movement is by foot or by donkey because roads of consequence do not exist.

ARMS SEIZED

Gen. Napoleon Zervas, Minister of Public Order, told a press conference that stores of arms and ammunition had been seized in Kavalla, Salonika and other points and alleged that Communists had expected to use the equipment in their "Plan F" uprising throughout Greece. Zervas said the plot had been smashed and that more than 3,000 leaders were under arrest.

Zervas said arrested Communists had confessed to parts in the plans.

He stated orders issued in connection with "Plan F" aimed at "creation of a complete Communist army to be ready for immediate action."

The Communist-directed newspapers Rizospastis and El Eftteri Ellada both published again today. Zervas said "absolutely no" government censorship was planned.

War Minister George Stratos said at a press conference Thursday night that the army had dislodged the rebels from their fortifications on Mount Grammos and pushed them back to within a few miles of the Albanian frontier.

The War Minister said another insurgent objective was to clear the way into Greece from Albania for an international brigade of 2,500 strong, which he declared now was at the Yugoslav port of Split on the Adriatic coast. He reported the battle had been going on for two weeks.

Describing the efforts to maintain security as an essential part of economic recovery, Griswold said that "it would be hard to build a bridge, and have it blown up right away."

"We believe the reconstruction program will help break up the guerrilla bands," he added.

In the first breakdown of aid plans, Griswold said it is proposed to spend about \$19,000,000 for agricultural rehabilitation, \$48,000,000 for rebuilding ports, highways and industry, \$75,000,000 for food, clothing and other civilian goods, \$3,000,000 to cope with malaria, tuberculosis and other health problems, and \$1,500,000 to train Greek nationals.

U.S. Speeds Supplies To Greece

WASHINGTON (AP)—Dwight Griswold, chief of the U.S. aid mission to Greece, said today military supplies valued at \$35,000,000 are en route to equip the Greek army and navy on an "anti-bandit basis."

Griswold told a press conference the equipment now moving to U.S. ports for shipment is largely from U.S. army and navy surplus. It includes light mountain pack artillery, mules, food for troops, ammunition, and some trucks and jeeps.

Shipments of military supplies, scheduled to comprise half the \$300,000,000 aid program, probably will continue into the fall, Griswold said.

Ferry Rate Dispute May Result In Tying Up Of Ms. Chinook

Possibility of the Ms. Chinook, which operates between Victoria, Seattle and Port Angeles, being tied up on Aug. 3 was foreseen by local shipping officials today as the result of the Washington State department transportation's order reducing a ferry rate increase from 30 to 10 per cent.

Fear the Chinook might be tied up grew as Capt. Alex M. Peabody Thursday repeated his assertion that the Puget Sound Navigation Company, of which he is president, would "tie up our ferries and get out" unless some relief from the order cutting the ferry rates.

The order is effective Aug. 3. Captain Peabody said the company would, as a last resort, seek a writ to enable the company to continue under the 30 per cent increase while trying to convince the court the department had erred.

George Paulin, agent for the Black Ball Ferry Line, a subsidiary of the Puget Sound Navigation Company, said he did not know if a "shut down" would effect the Chinook.

"I haven't discussed the matter with Capt. Peabody," he said. "I think he means he would tie up all his ferries operating in American waters which would include

the run between Seattle and Port Angeles."

Mr. Paulin said the reduction of ferry rates ordered by the State Department only involved ferries operating in American waters and did not effect the international rates between Canada and the U.S. mainland.

That is why I don't think the dispute involves the Chinook," he said. "Both the Black Ball ferry and the C.P.R. steamships operate on the same rates."

However, Mr. Paulin said Capt. Peabody had not made an idle threat when he announced he would tie up all his ferries.

"He is quite serious," he said, "the company cannot operate on reduced rates."

Wanted Police Guard On Her Clothesline

Some odd requests come over the telephone to the desk sergeant at the city police station, but the oddest received for a long time came from a woman yesterday. She was going to be away from her home for a period of the day "but I have left a considerable amount of washing drying on the line and want the police to keep an eye on it so that it won't be stolen," she said.

Hindustan To Have Larger Army Than Pakistan, Council Decides

NEW DELHI (Reuter)—The new Dominion of India (Hindustan) will have 15 infantry regiments, while the Moslem Dominion of Pakistan will have eight regiments, the Partition Council announced today.

Under the division, reached on a "rough and ready communal basis," the Dominion of India also will have 12 armored corps units, 18½ artillery regiments and 61 engineer units.

Pakistan will have eight infantry regiments, six armored corps units, 8½ artillery regiments and 34 engineer units. These decisions, it is stated, will in no way reduce the "comb-

Pineapple Strike Called In Honolulu

HONOLULU (AP)—C.I.O. workers struck the multi-million dollar pineapple industry today at the harvest peak, but negotiations on the deadlocked wage issue continued.

Representatives of the pineapple companies and Harry Bridges, International Longshoremen's and Warehousemen's Union, conferred without apparent headway long past the midnight strike call for some 12,000 union members.

Nathan P. Feinsinger, U.S. Labor Department conciliator, kept the negotiations going in

renewed efforts to settle the long-threatened walkout in Hawaii's pineapple plantations and canneries, which grow and process 90 per cent of the world's supply in a \$65,800,000 annual industry.

The union ordered its workers off both canneries and plantations but provided for essential utilities on the latter.

Rain Controls Fires

B.C. Forest Service officials reported today 14 small fires in the coast district have been brought under control by general rain over the area. The largest fire covered 150 acres on a logging operation near Hope. Officials said they are continuing the partial closure of the Sayward forest on Vancouver Island. Four small fires have been burning on Vancouver Island.

\$644,328 Profit

OTTAWA (CP)—Eldorado Mining and Refining Co. Ltd. showed a net surplus of \$644,328 for the 15-month period ended March 31, according to the company's financial statement tabled in the Commons today by Reconstruction Minister Howe. The company was expropriated by the government during the war.

Drastic Wheat Law

PARIS (AP)—The countries of the world will be asked by the Paris emergency cereals conference to enact drastic laws allowing only designated parties to deal in, own or hold grain if a resolution drafted in committee is passed at tomorrow's final session.

THE LINE IS DRAWN

FOURTEEN MEN IN MOSCOW HAVE succeeded in persuading those European states that come within the Russian sphere of influence to decline the Anglo-French invitation to take part in the discussions of the "Marshall Plan" which are scheduled to begin in Paris tomorrow. This is the stark truth with which a war-weary world is confronted today. To say that the developments of the last few hours have projected a dark and sinister shadow across the international scene is an oversimplification of a condition strikingly similar to that obtaining when the late and unlamented Adolf Hitler used to confer with the now defunct Italian "jackal" either in Berlin, Rome, or at the Brenner Pass.

As the Fuehrer of all the Germans in those days, the former Austrian corporal found it desirable to clothe his totalitarian mentor with some semblance of authority in decisions upon which anxious peoples everywhere hung with bated breath. But the man from Berlin always got his way. The former Georgian peasant is under no such theatrical obligation; he merely consults with his colleagues of the Politburo and sees to it that appropriate instructions are sent to those in charge of the states within the Soviet orbit—and the rest appears to be comparatively simple. If any proof were needed to support this lugubrious contention—a conclusion which less than a year ago would have been considered as rank heresy and almost traitorous—it is revealed in all its naked reality in today's dispatches from various capitals. To be sure, early this week it seemed that Czechoslovakia, at least the literate and proud Czechs, would refuse to be bullied into despotism for a second time in a generation. Finland's recognition of her reported acceptance of the Anglo-French invitation is easier to understand.

But if Prime Minister Stalin and his intimates in the Kremlin are satisfied they have served the best interests of the Soviet Union by their carefully-designed boycott of the new Paris conference, they have a strange concept of the obligation which Russia accepted when her Foreign Commissar signed the United Nations Charter in San Francisco a little more than two years ago. What will be the outcome of Moscow's behaviour toward the "Marshall Plan" can be only a matter of conjecture. It is suggested, for instance, that the Politburo is anticipating a terrific economic crash in the United States, that Molotov and Company would be able to turn such an eventuality into a still more comprehensive European political and territorial policy of aggrandizement, and that such prospective advantages would be seriously jeopardized if Russia and her malleable satellites were to allow themselves to become actively associated with the policy which the United States has agreed to underwrite.

The dangers inherent in the development of this idea for the future of the Old World need no emphasis. Russia's charge that the "Marshall Plan" is the thin edge of an American wedge to gain political and economic control of most of the nations of continental Europe, that it is designed solely to draw a line of demarcation between East and West, is obviously a Soviet vehicle on which to parade Moscow's suspicions. But the men in charge at the Kremlin are not so naïve as to believe the Washington government cannot see through the thin layer of these "fears" to the basic purpose which lies underneath. And it will be interesting now to see how the "fellow-travelers" in this and other countries react to this latest demonstration of political and economic chicanery.

CHURCH AND RECREATION

THE CHALLENGE PRESENTED TO Orthodox religious denominations by the Archbishop of York relative to Sabbath activity is one which may well engage the attention of all who seek an intensification of spiritual growth in a world too close to material things. Said Dr. Garbett: "Worship will not be of real benefit to the person who only goes to church because there is nothing else to do."

That thesis presumably moved him to state quite frankly that he had little opposition to wholesome forms of recreation on Sunday provided the individual participating in them allowed himself some time for worship and rest.

This is not to suggest that similar views are not held by others of the clergy. The ranks of the "Blue Sunday" forces are not now nearly as imposing as they once were. It is significant, though, that a churchman of Dr. Garbett's eminence should express a general recognition of the fallacy of religion, by compulsion or the writing down of spiritual activity to the level where it is something in which to participate when nothing else is available. His words constitute another call to the churches to attract people for the merit that is to be found in the houses of worship. That is the only way by which churches can justify their appeals for better attendance.

TAXATION AGREEMENTS

THE FEDERAL MEASURE PROVIDING for taxation agreements with seven of the nine provinces of the Dominion is expected to receive final passage today, paving the way for the signature of the Governor-General. Briefly the act will continue the arrangement which was in effect during the war, whereby the federal government collects the tax on personal and corporate incomes and returns to the provinces the share they would have received from imposing the tax themselves. Constitutionally, the federal authority has the right to all forms of taxation while the provinces may collect direct taxes. Their conditional relinquishment of this right was therefore a matter for formal agreement. However, as Finance Minister Douglas Abbott has pointed out in the Commons, the provinces in doing so in no way surrendered their constitutional powers.

Still missing from the group included in the new legislation are Ontario and Quebec, which so far have not reached agreement with the Dominion government on the terms of taxation reimbursement. The former province has based its disagreement mainly on fiscal and political grounds, while the French-Canadian province has seen in the arrangement a threat to its traditional independence. The way, however, is still open for eventual agreement.

For the individual taxpayer the implementation of the agreements means that he will continue to make out only one income tax form each year, instead of separate federal and provincial returns as in prewar years. There is strong evidence, too, for the supposition that his tax total may be somewhat less than if he were subject to the pressing demands of two taxing powers. Though he may ruefully feel at times that he has a millstone around his neck, he will at least have the satisfaction of knowing that he is not being ground between two of them.

HEDGE DANGERS

AT THIS SEASON, WHEN SHRUBS AND trees are in dense foliage, the annoyance and danger stemming from hedges that obscure the view or block paths become particularly apparent. In several cases the growth constitutes a traffic menace, as in the instance of the wedge formed by the intersection of Collinson and McClure, where those streets join steeply graded Blanshard. True, there are stop signs at this location. But a motorist who brings his car to a halt behind the hedge has inadequate vision for safety when he starts again.

This is but one location. There are probably many more. They pose hazards for the driver. In other localities sidewalk-bordering hedges are inclined to crowd pedestrians off footpaths and to add to the discomfort and nervousness of women at night when light is obscured by them. Attention to these highly useful means of securing privacy for gardens would be welcomed. It should not be necessary for official action to force compliance with the dictates of simple courtesy which should persuade hedge-owners to consider the convenience of others.

CHAINED AND TOO FREE

THE TECHNIQUE OF THE TENNESSEE father, who chained his 16-year-old daughter to the bedpost to prevent her from going out, will excite general revulsion among parents of this continent. It was obviously a case for police action.

We wonder, however, how many mothers and fathers err on the other extreme—by giving their offspring so much liberty that it almost constitutes neglect. Keeping children in chains is fantastic. But what of the youngster who is allowed to roam abroad at night, participating in activities of which guardians have no knowledge and, in unfortunate cases, starting on a course of petty delinquency which ultimately leads to serious trouble? Not that we suggest parents should tie their children to maternal apron strings. They must be allowed their proper share of freedom. But they ought to be guided in a manner to make profitable use of their liberty as it is increasingly extended to them.

The instance of bed-chaining can be dealt with simply. That of too great elasticity is another matter again. It is the one to which parents must give serious thought at this time—remembering, of course, that their children are individuals who should be allowed to express their individuality, but should benefit also from wise and sympathetic direction.

CONSIDERATION LACKING

IF PARTICIPANTS IN BEACH PARTIES at Gonzales Bay are breaking the law by drinking in a public place and disturbing the peace, their activities are a matter for attention by the police. If Alderman B. J. Gadsden, a member of the police commission, thinks the issue is one for the parks committee, as the report of Monday's council meeting indicated, he should inform himself a little more fully on police duties.

On the other hand, if the complaint arises from the danger of broken bottles—containers of soft drinks or others—there is a definite responsibility on the department having jurisdiction over the beaches to see that sharp glass is not left in sands where children play. Few, if any, of the residents of Gonzales Bay would object to legitimate fun at beach parties, provided those engaged do not create a noise nuisance far into the night. They have, however, a legitimate complaint in cases where parties show so little consideration for others that they disturb sleep and jeopardize the innocent play of youngsters through careless disposal of broken bottles.

The Friend Of Birds

CHARLES ALBERT HARWELL, representative of the United States National Audubon Society now conducting field work on Vancouver Island, pursues his lips and from them flow the liquid notes of the sooty fox sparrow. In near perfect reproduction he presents the tilting strains of this rarer member of this region's songbirds. It is an accomplishment in the mastery of which he has spent some time. As he hears the calls of different creatures, he writes them in his notebook—writes them in pitch and rhythm which permits him to whistle them as a musician would reproduce the notes before him on sheet music.

To the people of this community he is grateful for co-operation in his present task of making colored moving pictures of selected subjects. In one instance he received the help of a family which had located for him a hummingbird's nest with young. In other cases he has found a genuine appreciation of bird life which has assisted him in the exacting tasks of reproducing the tiny creatures in attractive film form—a form, incidentally, which will bring the name of Victoria to audiences where Audubon Society illustrated lectures are given in the future.

HIS WORK IS PART of the organization's campaign to prevent the indiscriminate killing of wild-life on this continent. And through his appealing pictures and lectures, children are given an appreciation of the beauty of birds and other creatures that implants in them an appreciation for conservation. This is the underlying objective of the agency which began with a protest against the slaughter of feathered creatures when women demanded too much plumage on their millinery and hunters were indiscriminate in their killing. Now this best-endowed conservation agency in the world has extended its field to cover animals, and Mr. Harwell finds satisfaction in the support accorded by no less than 6,000,000 children in Junior Audubon Societies on this continent.

WHY DO PEOPLE instinctively like birds?

In the opinion of the society's representative, the attraction is one of beauty, appeal in shape, color and song, coupled with a responsiveness to human treatment and a close familiarity with the more common species. With that is combined an economic value in pest control. Even the despised crow is an evil for only five months of the year and a benefactor for the other seven. And ducks, which benefit from the efforts of a strong protective agency, can be as destructive as the blackbirds in communities dependant on rice-fields.

For this reason, bird lovers have secured widespread protection from governments in Canada and the United States, which operate with the same end in view though through different media. It is interesting to note that Canada even includes two predators, the osprey and the bald-headed eagle, among the categories which cannot be shot—the latter for sentimental reasons of "good neighborliness."

THESE ARE POINTS DISCUSSED by Mr.

Harwell in the course of conversation on conservation. He loses no opportunity to explain them. But his trip to Vancouver Island is inspired by material considerations beyond the abstracts of Audubon policy. In this section of Canada, unusually rich in bird life, he has found some success and hopes for more in securing pictures of unusual specimens. In the Qualicum district, for example, he will seek the water ouzel, the only bird other than the webfoots adapted to securing its food entirely from the water. It swims on the surface and beneath, has plumage the color of slate and is similar in size to the blackbird.

THE WIDE VARIETY of bird life on Van-

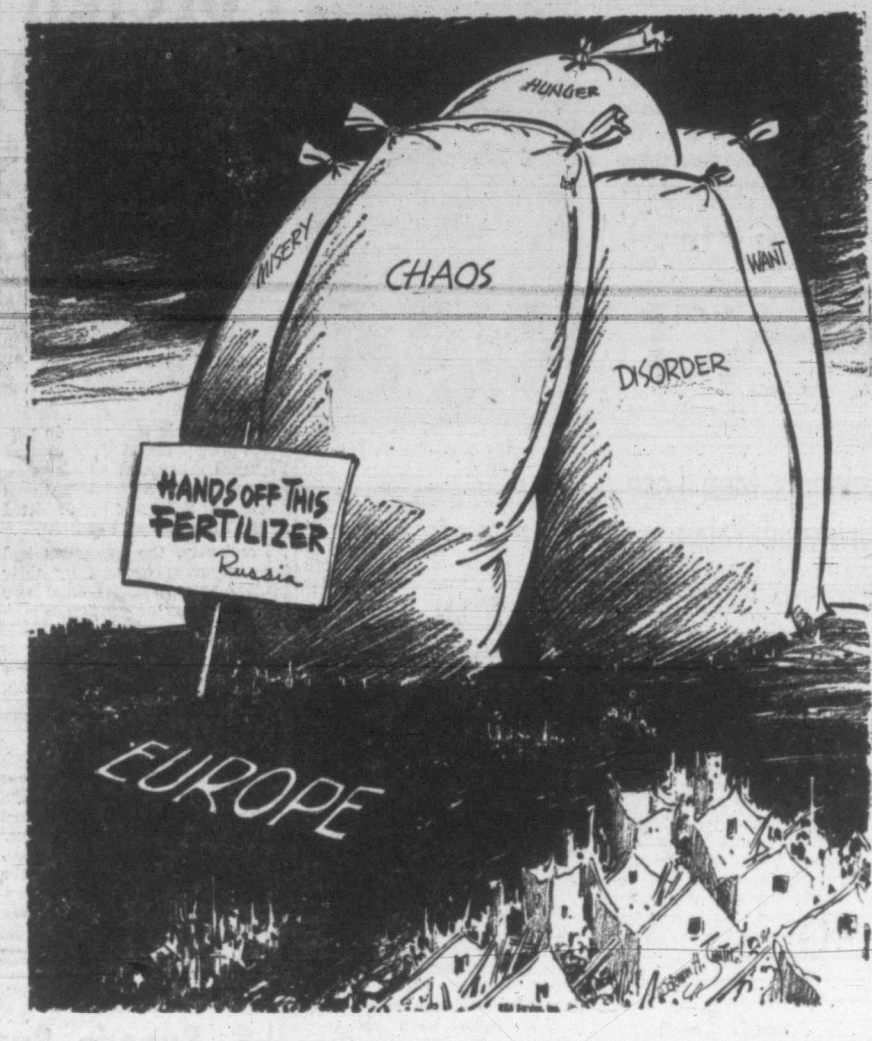

couver Island is attributed to many factors. Here are found ocean, estuary, forest, garden and meadow conditions that attract and provide a satisfactory habitat for almost all species in the broad area known as the Pacific fly-way.

This does not, however, entirely explain the habits of migratory birds which, moving under some impulse as strong as that which sends the lemmings to sea, must fly to this area at certain seasons though calamity might befall them. That compulsion, some believe, arises from conditions of light. When the sun shines from a certain quarter, they must migrate. Not that the day and hour of arrival at a specific point is certain. The story of the swallows at Capistrano, for instance, is largely myth. They do reach that community within a period that does not vary more than three weeks from a given date. But the exactness of their arrival is a fiction promoted by a Los Angeles newspaperman, abetted by radio sound effects experts who have reproduced for air audiences the fluttering of wings by artificial means.

THESE POINTS OF INTEREST are included in the bird lore gathered by Mr. Harwell. They will be expanded for fanciers here during a series of five Audubon lectures in this city next year—a treat for nature lovers which has been arranged by local authorities under the leadership of Dr. Clifford Carl, head of the Provincial Museum, whose appreciation of the Society's work has won unstinted praise from the traveling representative.—A.H.S.

Healthy citizens constitute our greatest national resource. In time of peace as in time of war our ultimate strength stems from the vigor of our people.—President Truman.

Earmarked For Future Communist Harvest

Don't Blame The Baker

By R. J. DEACHMAN

BREAD PRICES are likely to go up. Would it shock you to know that in the United States the average price of bread per pound is 11.7c—in Canada 5.6c? Why this difference? The price of wheat is higher in the United States than in Canada. We have made a contract for the sale of wheat to Great Britain at \$1.55 a bushel. This is the price at lake ports, Vancouver or Churchill.

The open market price, the price at which we sell to countries, other than Great Britain, varies from day to day. The present price is \$2.50 per bushel. It has been \$2.84. Wheat is supplied to the millers at 77c a bushel. The difference between this price and the price at which we supply the United Kingdom represents a bonus—not to the millers, not to the bakers, but to Canadian consumers, they get bread cheaper this way but pay for it in their taxes.

ONE BILLION LOAVES

How much bread do we consume in a year? A billion loaves, this is one thousand million loaves of bread—1,000,000,000 you would like to see it in figures—some bread!

An increase of 1c in the price of a loaf of bread would cost the Canadian people \$10,000,000 a year. If we were buying our

bread at American prices we would be paying more than twice as much as we now pay.

Who foots this bill? In the first place it comes out of the taxpayer. I have pointed out that the open market price for wheat, that is the price which other nations, aside from Great Britain, have to pay for it, is \$2.50 a bushel. If the Canadian farmer could get this additional price he would be sitting pretty. The farmer, however, has a different point of view. He feels that if prices do not soar too high in a boom, they may not drop so low in a depression. Only time will tell.

Good baking flour is worth in Canada about \$4.50 a barrel. If this bonus were removed and the millers had to pay the world price for wheat, flour would sell at least \$8 higher—\$12.50 a barrel. A barrel of flour will make 186 24-ounce loaves of bread. This is the standard loaf in Ontario and Quebec. There are other ingredients in bread besides flour. When controls were removed the higher price of shortening alone added nearly \$3,000,000 to the bills of the bakers. There are a score of other items used in the industry. The cost of delivery has gone up, even the wrappers cost more.

What about the profits of the bakers? Common sense tells me that when costs are rising, while bread prices are fixed, profits cannot be high. Fred McGregor has had charge of the operations of the Combines Investigation Act for many years. If a combine is loose in the country Fred will find it out and chase it to its lair. He investigated the bread-baking industry in 1931. This is what he wrote:

COMPETITION

"That there is a price competition is evidenced by the substantial reductions in price which have occurred within recent months. Chain store competition, even though much of it has been below cost, supplemented by the competition of smaller low-cost bakeries all over the country, has made itself felt. The small capital required to operate small bakeries and the short time within which they can be brought into operation is a public safeguard of some importance. There is also the corrective influence of the existence of the smaller flour mills, and the additional possibility of bread being baked at home in the event of bakers' prices going beyond what are considered reasonable limits."

This should please the bakers—it should satisfy the people.

Canada And U.S. Defensive Alliance

By LEWIS MILLIGAN

THE OTHER week I sat in the "Strangers' Gallery" of the House at Ottawa and listened to a lively debate on a bill permitting American forces visiting Canada to maintain their own military discipline. From that brief description of the bill it would appear to be a simple routine measure of little national, much less international, significance. But opposition members did not so regard it, and the government itself evidently thought the matter of sufficient importance to call for special legislation.

The debate was not concerned with the mere question of disciplining American forces in Canada; the real question at issue was as to why and for what purpose American forces were in Canada at all? This question was raised by CCF Leader M. J. Coldwell and other members of that party who suggested that the very presence of such forces was an infringement on Canada's sov-

ereignty and that it created a suspicion of warlike preparations against Russia. Mr. Coldwell demanded that the government disclose the number, the locations and other particulars of the "visiting" troops.

External Affairs Minister St. Laurent tried to allay the suspicions and fears of CCF members, and Defence Minister Claxton bluntly refused to give the desired information. He said that supposing such information showed that there was an increase in the number of Canadian and American troops manning such things as weather stations, "that can be played in this and other countries as a very dangerous and threatening sign, whereas everyone in this country knows that it would be just the most reasonable kind of effort to defend our own country and to prepare for any emergency that might arise."

The passing of this bill was

perhaps the most important act of the present session of Parliament, for it means a fundamental and far-reaching change in the relationship between Canada and the United States. It means that the two countries have entered into a military alliance for defensive purposes in peace as they were in war. Naturally, the Russians will regard it as directed against them, especially where it concerns the Arctic regions. But the Russians have no right to complain since they have for many years been doing the same things in a more intensive way on the other side of the Pole.

As for Mr. Coldwell's demand for full information regarding the disposition and activities of the combined defensive forces, Mr. Claxton gave the right answer when he said that until Canada should secure a guaranteed reciprocal basis of exchange of such information with other nations, the information would not be given out.

'Green Belt' Planning In Australia

Australian News

BRISBANE, CAPITAL of the State of Queensland, Australia, has a town planning scheme providing for about 150 neighborhood units of 50 to 60 families each, and 35 self-contained community units of 12,000 to 15,000 population each, all designed to operate within the main development area of Brisbane inside a "green belt." Major park schemes for the planned

neighborhoods involve about 3,000 acres. Reservation of land at Long Pocket, on the Brisbane River near Indooroopilly, to provide a riverside park and boulevard, was recently authorized by the Brisbane City Council.

A special committee of town-planners has submitted its first report on the provision of a

permanent agricultural belt around the city of Melbourne, Victoria, to eliminate "uncontrolled sprawl."

The plan provides for a belt five miles wide encircling Melbourne at a distance of 15 miles from the heart of the city. In this "green belt" will be seven regional parks, each with an area of 3,000 acres, mainly for recreation, sport and relaxation.

Global Survey

By DEWITT MACKENZIE
Associated Press Foreign Affairs Analyst

WELL, the division of Europe into eastern and western blocs finally has been formalized—and by Moscow.

Russia knew whereof she spoke when she warned that the American program for European rehabilitation would result in the formation of two blocs. She knew it because she herself was prepared to make the division arbitrarily.

Only one of the small nations within the Soviet Union sphere of influence dared accept the Anglo-French invitation to attend the rehabilitation conference scheduled to open in Paris tomorrow. That was Czechoslovakia—Slavic in origin but western in its ideas and ideals. Moscow put on the screws, and the Prague government, with its Communist premier, gave in.

One wonders, by the way, what reaction we may get ultimately from the very democratic president Eduard Beneš, one of the founders of the republic, and from foreign minister Jan Masaryk, son of the late Dr. Thomas Masaryk, father of his country and its first chief executive. The Czech spirit isn't adapted to servitude. Smoldering fires burn long.

COUNTER PROGRAM? Indications are that Russia is preparing to inaugurate a counter economic program for her eastern bloc. Thus, as things now stand, instead of a co-ordinated effort in the interests of European rehabilitation there will be two competing areas. Each of them will have resources which the other needs and can't get.

One of the most extraordinary aspects of this situation is displayed in an astonishing statement by a Polish government spokesman in Warsaw. Commenting on Poland's rejection of the invitation to attend the Paris parley he told a news conference that his country still looked principally to the United States to supply the necessities for rebuilding the war-torn nation.

Undoubtedly there are other Soviet satellites which are hoping that America will aid them, despite their refusal to participate in the Marshall plan. Big-hearted Uncle Sam! Should the United States subscribe to such a program it would put her in the position of supplying the Soviet and its satellites with the sinews to combat the policies of the western democracies.

LACK REQUISITES So far as concerns any Muscovite plan to provide the wherewithal for economic rehabilitation of the eastern bloc, it is obvious that the Soviet Union isn't in position to supply anything like all the needs. As the present crisis has boiled up the government announced (presumably for the benefit of its satellites) that it has had wide successes in its own domestic recovery program. A large increase in crop acreage is reported, and industrial production is said to be up 15 per cent, but that doesn't suffice for Russia's own requirements.

Of course, that situation may change with time. If Moscow can hold its satellites in line for a few years on short rations, perhaps the Soviet can engineer the economic rehabilitation of its bloc, though that would be a tall order. Hitler achieved it by creating an economic structure in which the efforts of the small countries complemented those of Germany. The fatherland produced the manufactured goods which were exchanged for agricultural commodities needed by the Reich.

POLITICAL UNION? There seems no reason to doubt that Russia can duplicate this feat by heavy industrialization, providing she can hold her bloc together meantime. It's a trick that can't be turned overnight, however.

The position at the moment is that Russia has to all-intents incorporated the countries of eastern Europe into the Soviet Union. If history repeats itself, some if not all of them will in due course apply for membership in the Union, as happened in the case of the three Baltic states in 1940.

Then the Soviet western frontier would run in fact, as it does now in practice, from Stettin on the Baltic to the head of the Adriatic.

VOICE IN WILDERNESS

Washington Post
The piteous spectacle of starving Greeks' deludely sending food parcels to this country should make congressional opponents of the Voice of America review their position. The confusion would be funny if it were not such stark tragedy. Here we are, starting in to rescue Greece, and the objects of our benefactions are contributing their pittances to combat an imaginary food shortage in this country—trumped up, it is said, by Communist propaganda. Could there be any clearer indication of the crying need for a vigorous foreign information program to tell the truth about America far and wide?

Truman To Veto New Tax Cut Bill

WASHINGTON (AP)—President Truman said Thursday he would veto the new Republican \$4,000,000,000 income tax reduction bill.

He made the statement to a press conference shortly before the Senate began consideration of the legislation already passed overwhelmingly by the House.

The President said he didn't see why there should be any change in his attitude since it is the same tax measure as the one he vetoed before, except for a different effective date.

Canada To Change Title Of King

OTTAWA (CP)—Prime Minister King introduced in the Commons Thursday a bill which would delete the words "Indian Emperor" and "Emperor of India" from the official title of the King. The bill was given first reading.

The Prime Minister said the legislation had been requested by the British government in conformance with the India independence bill now before the United Kingdom Parliament.

When the independence bill takes effect Aug. 15, the King will no longer be Emperor of India, Mr. King said.

(Answer to previous puzzle)

Uncle Ray

FIJI NATIVES BLAME NEIGHBOR TRIBES AND CLANS FOR ILLNESS

Out in the Pacific ocean, just south of the equator, is an island which was seen by white men for the first time 154 years ago. It is known as Rotuma, and has an area of 14 square miles.

Rotuma is the top of an ancient mountain. There are many trees on the higher parts of the island, and hundreds of coconut palms grow along its shores. This island has little importance to the outside world, but it exports a few tons of copra, or dried coconut "meat," each year.

When white men found the island, there were brown-skinned natives on it. These people number about 2,400. Almost all of them call themselves Christians, but they have kept some of their old customs. They perform "war dances" from time to time.

Rotuma is an outlying island in the Fiji group. The customs of the natives differ from those on the other Fiji islands.

Altogether there are about 250 Fiji islands, and 80 have people on them. They have a population of 210,000. Among the islands, the one known as Viti Levu is the largest. It has more than half of the land in the whole group.

The Fiji natives have a widespread belief in magic—chiefly "black magic." Often, when they have an illness, they blame the trouble on members of a nearby tribe or clan.

One day a native appeared before A. R. Brewster, the chief officer of the law on Viti Levu. "People in my village are dying," said the native. "This is because members of the Nalova clan have looked at us with the evil eye, and have put black snakes into our stomachs."

Mr. Brewster listened with care and took notes. Then he visited the village. Before long he saw a pigsty next to the spring which supplied the people with water. He ordered the pigsty to be moved, and in a few days the sickness lost its hold on the village. The trouble had been caused by pigs instead of by black snakes!

Sponsored by the Society for the Preservation of Native Plants, an exhibition of native wild flower paintings of Emily Sartain, well-known English artist, will be on display at the Provincial Museum for approximately two weeks. There are approximately 100 exhibits.

PULLMAN, Wash. (AP)—Surveys of cherry growing districts have shown the Little Cherry disease, which originated in the cherry industry in the Kootenay district of British Columbia, is widespread in eastern Washington. Dr. M. R. Harris, extension plant pathologist at Washington State College, said Thursday.

"Considering the seriousness of the disease, prompt removal of infested trees is desirable," Dr. Harris said.

He reported infections had been found on about 80 properties. The disease is caused by a virus and is transmissible by bud inoculation.

The disease is caused by a virus and is transmissible by bud inoculation.

The DOCTOR Says:

ALUMINUM DOES NOT CAUSE POISONING

By WILLIAM A. O'BRIEN, M.D.

False ideas in regard to food poisoning persist as a result of propaganda by persons who have no standing in the commercial or professional fields. The most persistent hokum is that aluminum causes poisoning.

Aluminum cooking utensils and alum powder have been shown by many tests and experiments to be absolutely free of danger. It is true that aluminum vessels are affected by acid foods, but the aluminum which is taken into the body in this way is not absorbed in appreciable amounts. Aluminum occurs in many foods, in their natural state, which are recommended for human consumption by the same persons who warn against aluminum poisoning.

Cancer is not caused by aluminum nor can any stomach or intestinal disturbances be traced to its use. In the past, prejudice against granite ware, copper kettles, tin cans and other metals was equally strong.

Illness from poison in food is a possibility. Fruits or vegetables sprayed with arsenic might be dangerous if they are not washed or peeled before use. Carelessness in mixing cockroach powder in food has resulted in death. Mushrooms may contain deadly poison, and some persons have been made ill by eating shellfish containing a poison which came from parasites on mussels and clams.

COVER FOOD IN TIN CANS

Leaving food in an open tin can is not harmful if the food is kept in a refrigerator in which the temperature is low enough to prevent spoiling. The food should be kept covered to prevent further contamination.

Ordinary cooking utensils may be used without fear of poisoning of any kind. Lead-soldered cans should not be used as a mild zinc poisoning may result. Galvanized iron can also cause difficulty.

KESWICK, Eng. (CP)—Yorkshireman Ted Corrick is building a compact three-room house inside the fuselage of a dismantled United States Army glider.

Believed Russians Will Leave Hungary When Treaty Ratified

VATICAN CITY (Reuter)—

While numbers of people, including many Roman Catholic priests, are fleeing from Hungary in fear of their lives, well-informed circles here, conversant with the Soviet mentality, are not unduly perturbed.

The Russians, they believe, will eventually yield before the pressure of Anglo-American policy and leave Hungary as soon as the peace treaty has been ratified.

Moreover, these circles stress, the men who today make up the Hungarian government, although admittedly for the most part Communists, are giving the general impression that they are primarily interested in the good of their country.

The fact that the opposition has been able to speak plainly in the chamber is, they add, proof that freedom has not been entirely suppressed in Hungary.

Although the Hungarian mission sent here to explore the possibility of re-establishing diplomatic relations between the Vatican and Hungary now has left for Budapest, it is emphasized that friendly relations between the two states are in no way impaired. The talks have been suspended, but not in any way broken off and Prof. Laszlo Toth, head of the mission, and his colleagues are understood to have created a very favorable impression here. Until the present situation in Hungary has been clarified, however, the talks cannot be resumed.

To start the day Fresh and Smiling

TRY THIS TONIGHT!
Life is much brighter if you can start the day with a smile. If you waken tired and listless why not do as thousands today are doing—just drink a cup of Ovaltine at bedtime each night.
For Ovaltine acts in three ways, to help make you alert and glad to be alive.
First, taken warm at bedtime, it fosters sound, refreshing sleep, without drugs.
Second, it supplies essential food elements to rebuild vitality while you sleep!
Third, it also furnishes important vitamins and minerals in a delicious, more natural way for all-round health and vigour.
So why not try Ovaltine beginning tonight and get off to a good start in the morning.
Ovaltine

Ceremonies This Week Formally Open 6 Saanich Playgrounds

Opening ceremonies were held at six Saanich playgrounds this week and the large number of youngsters attending were given a brief outline of the program for the summer months.

Councillor E. P. Cummins officially opened the Rainbow playground. Sgt. Eric Elwell of the Saanich police force spoke briefly to the children.

Miss Betty Boulet, park supervisor, was introduced. She told the 200 children and parents present registration had reached 56 the first day. The group was told the playground facilities had been made available by volunteer work.

A fancy dress parade was held with prizes awarded to the winners. Terry Dougherty and Rosy Smith won awards in the over-12 age group. Wayne Scharback and Beth Smith were winners in the 8 to 12 age group and Alex Loiselle and Trudy Smith received prizes in the 5 to 8 group.

Councillor G. A. Rudd attended the opening ceremonies of Tolmie Park playground. He was introduced by the park chairman, Mrs. W. Davis.

Mrs. R. H. Flint, personnel officer, and Mrs. M. Hamilton, supervisor, spoke to the 200 parents and children present. Team games were played and races held. Mrs. J. Oliver entertained with accordion solos.

Gorge Park playground was opened by J. Casey, president of the Saanich Recreation Council.

W. H. Warren, city parks administrator; A. Murphy and Mrs. F. Farrow, supervisors, addressed the children. Miss McKenzie, pro-rec instructress, was introduced.

An extensive program of games and races were enjoyed by the children.

At Playfair Park, Miss Sheila Beckwith, supervisor, outlined summer activities. She was introduced by Councillor T. Alexander, who officially opened the playground.

The opening of Rudd Park playground was attended by Mr. Casey. He was introduced by Mrs. A. Longley, park chairman. Mrs. R. H. Dresser, Mr. Rudd and Rev. Le Tarte also spoke to the large gathering of friends and children. Appreciation was expressed by the committee for the volunteer efforts of parents and other workers who aided in equipping the playground.

Tea was served to parents and soft drinks to the children. Volley ball equipment and slide forms for swings have been readied in the park.

Games and other sports marked the opening of Strawberry School playground at which Councillor Cummins officiated.

Ice cream, hot dogs and soft drinks were available to the children, with tea being served to the parents.

To Germany?

Frank Lausche, former Governor of Ohio, may be sent to Germany to consider one of "three top jobs" in the Office of Military Government offered him by U.S. Secretary of War Patterson. One job may be the post of director of internal affairs and communications.

Ald. Diggon Proposes Permanent Board On Transportation

The four municipalities of Greater Victoria will be asked by the Greater Victoria Transportation Committee to amend the by-law which set up the inter-municipal body so that its powers will continue.

Ald. H. M. Diggon, chairman, explained following a meeting Thursday evening, that with the passing of the franchise his committee's work was finished, as it had been set up only to negotiate and conclude a transportation franchise for the Greater Victoria area.

"We asked the Union of B.C. Municipalities to obtain legislation which would permit setting up of an inter-municipal committee to act with a transportation company in the operation of a franchise, last year," he explained. "It passed the U.B.C.M. but did not receive approval at the municipal affairs committee of the Legislature."

He is suggesting now that the same legislation be asked again, but to apply only to the Greater Victoria area, instead of being province-wide.

In the meantime he is asking the four municipal councils to authorize the committee to continue as the agent to deal with the transportation company in getting the unified system under way. "It will require either giving the present committee the power, or the appointment of a new committee," he said.

Suggests Series Of Events To Pay For May 24 Activities

A suggestion that events be staged throughout the year to raise money for Victoria's May 24 celebrations was put forward at the final meeting of the 1947 May 24 Celebration Association Thursday night in the City Hall.

The proposal came from F. French, representative of the Victoria Lions Club who was chairman of the May Queen phase of this year's celebrations.

Mr. French suggested that a pageant be held in the Royal Athletic Park, an ice follies be staged in the arena and a minstrel show be produced at the Royal Theatre.

"Three major events such as I have outlined plus contributions from business, grants from the City of Victoria, the municipalities of Oak Bay, Saanich and Esquimalt would provide adequate funds to sponsor a bigger parade and more elaborate entertainment than was witnessed this year. Also, the public would be getting something more in return for their contribution," Mr. French said.

A committee of eight was appointed to investigate the possibilities of the suggestion. Those on the committee are Dr. French, Harvey Baldwin, R. D. McLachlan, W. Bridgwood, M. F. Hunter, Wm. Mooney, Cmdr. P. D. Budge and Norman Foster.

In a financial report to the meeting, Norman Foster stated this year's budget had been exceeded and that the association was starting off for next year's celebrations with \$850 less than last year.

Immediately before the celebrations the association had \$2,500 in the bank, Mr. Foster said.

Ald. R. A. C. Dewar pointed out to the meeting that some of the major attractions on this year's program had not been money makers. He cited the Queen's Ball, the swimming gala and the massed choir presentation as examples, and warned that every effort should be made to keep within the budget next year.

Fred Norris, president of the Victoria Junior Chamber of Commerce, presented awards to the sponsors of prize-winning entries of this year's parade.

Could Manufacture Fertilizers Here

"Victoria might well establish a new and profitable industry by manufacturing fertilizers," Edmund Woodward, local florist, told his fellow members of the Victoria Rotary Club in a classification address to the Thursday meeting.

"Some cities are manufacturing a fertilizer from their sewage. It might be a good thing for us to do the same instead of putting the stuff into the sea to pollute our harbors and beaches," he said.

Mr. Woodward also mentioned that fertilizer was made in California from the bark of the redwood trees.

"On Vancouver Island there are a lot of cedars which are closely related to the redwoods and it might be possible to use them to make just as good a fertilizer," he said.

The meeting was presided over by Jeffrey Arnott, newly installed president.

Sales Of B.C. Land Increase This Year

Provincial land sales figures for the first half of this year show an increase of 66 sales and an increase of \$393,514 in value, compared with figures for the first half of 1946, according to a lands department report.

There was a total of 810 sales, valued at \$551,459, this year, compared to 744 sales agreements, valued at \$157,944, for a similar period last year.

Acreage sales totaled 674, with a value of \$528,673, and townsite sales totaled 136, with a value of \$22,786, up to June 30 this year. For the first six months of 1946, acreage sales totaled 580, for a value of \$111,200, and townsite sales totaled 164, with a value of \$46,743.

MacMillan Plans New Vancouver Plant

VANCOUVER (CP)—A plant to convert by-products of sawmill and plywood factories will be built in Vancouver area by the H. R. MacMillan Export Co. at an estimated cost of between \$2,000,000 and \$3,000,000, company officials announced Thursday.

The new factory will convert the present by-products, now sold as pulp chips for fuel, to soft and hard board for building purposes. An estimated 100 persons will be furnished with permanent employment.

Art Exhibitions At Little Centre

M. A. F. Hummel and the Manitoba Society of Artists are showing exhibitions of paintings at the Little Centre on Yates Street.

Mr. Hummel's exhibition consists of 33 watercolors, including a group of Mexican scenes and Indian paintings. His Mexican group is outstanding in the collection.

Included in the Manitoba collection are some fine watercolors, oils and pastels on a wide variety of subject matter and background.

The exhibition will continue until July 27. The Little Centre is open daily except Monday, from 11 a.m. to 5 p.m. Sundays it is open from 2 to 5 p.m.

K. C. Symons has been elected president of the Little Centre, succeeding Bertram Berwick.

Collingwood Mayor Accused: On Bail

COLLINGWOOD, Ont. (CP)—Mayor G. Kohl was free today on bail of \$5,000 pending trial here next Monday on a charge dealing with municipal corruption in this Georgian Bay shipping town. Magistrate G. R. Foster of Barrie will hear the case.

Owner of a women's wear store

here, the mayor was arrested Wednesday night on an information sworn to by Inspector Wilfrid H. Clark of the Ontario Provincial Police charging him with agreeing to accept remuneration for voting on a resolution relating to a Dominion government contract for breakwaters here.

The resolution dealt with location of harbor improvements on which federal authorities insisted the town council should agree before a contract for construction

was let. The sum mentioned in the charge is \$1,100.

While Mayor Kohl received no money, the Crown alleges he consented to accept, in violation of section 161 of the Criminal Code of Canada, under which the charge has been laid.

Mayor Kohl held the chief magistrate's position here for three consecutive years, 1936-37-38, and he withdrew from municipal politics until this year, when he was re-elected to office.

Victorian Elected

ROCHESTER, N.Y. (AP)—Dr. Ervin Seale of New York City Thursday was re-elected president of the International New Thought Alliance.

The group's 32nd annual convention also renamed Rev. Emma Smiley of Victoria, B.C., a vice-president.

There are about 95,000 Maori living in New Zealand.

Reid's Bronchitis Remedy is on sale for 39c and 69c at all Cunningham Drug Stores and other drug stores. F-3

Jean Sheret Bride Of W. R. Bigelow

Gorge Presbyterian Church was decorated with sweet peas, roses and Esther Reid daisies for the ceremony July 5 in which Mrs. Jean Sheret, only daughter of Mr. and Mrs. E. Hall, Paribay, Alix, Alta., became the bride of W. R. Bigelow, eldest son of Mrs. William Bigelow, Florence Lake, Langford and the late Mr. Bigelow. Rev. T. H. McAllister conducted the service.

John Paribay, Alix, Alta., gave his sister in marriage. She chose for the occasion a beige frock with tucked peplum effect, floral hat, and accessories in tone, and wore an opal heirloom pendant, and the gift of the groom, a gold Portuguese bracelet. A corsage bouquet of gardenias and sweet peas completed her ensemble.

Mrs. J. G. Thomson, sister of the groom, was sole attendant. In a turquoise suit with matching hat and corsage bouquet of gardenias. The groom was attended by his brother, Frank Bigelow.

A reception was held at the home of Mrs. W. Bigelow, who welcomed guests with the bridal couple.

A three-tier cake flanked with tall pink candles centred the lace-covered table. J. G. Thomson gave the toast to the bride.

Mr. and Mrs. Bigelow left for their honeymoon on the mainland. The bride traveled in a green ensemble with gardenia corsage bouquet.

If the cut of your old suit jacket is good... and the skirt is too short... buy, or have made, a smartly contrasting skirt. Solid color jackets look well with tweed skirts that pick up a little of their color. Tweed jackets are smart with plain wool skirts!

Marriage Planned In Late July

MISS E. KATHLEEN ALLEN

Mr. and Mrs. Hugo H. Allen, 1775 Carrick St., announce the engagement of their younger daughter, Eila Kathleen, to Dr. William Leonard Grant, only son of Mrs. C. E. Grant of Vancouver and the late Mr. William B. Grant, Aberdeenshire, Scotland. The marriage will take place quietly on July 28 at St. John's Church.

Clubwomen's News

Officers Installed—District Deputy President of District No. 1, Sister M. Fleming installed officers for the next six months, at the regular meeting of Carpe Rebekah Lodge, No. 45, held in the L.O.O.F. Hall, Douglas Street. She was assisted by Sisters Graham, L. Smoother, F. Porter, E. McCabe, E. Baron, O. Zard, B. Johnson and Silver. Officers were E. Van Alphen, Noble Grand; M. Gower, Vice-Grand; N. Howes, recording secretary; E. Kennedy, financial secretary; E. Nichols, treasurer; E. Fletcher, warden; G. Anderson, conductor; E. Holyoak, pianist; W. Overy, chaplain; L. Smoother, R.S.N.G.; E. McCall, L.S.N.G.; E. McCabe, R.S.V.G.; U. Hurley, L.S.V.G.; H. Parker, inside guard; W. Robilliard, outside guard. Following the meeting refreshments were served.

Mrs. F. Kechell Heads Esq. Legion Branch

Mrs. F. Kechell was installed as president of Canadian Legion Esquimalt Branch, No. 72, at the regular meeting. Mrs. E. Swan, vice-president, Provincial Command, acted as installing officer. Other officers are Mrs. A. Smith, vice-president; Miss E. Hobbs, secretary; Mrs. W. J. Gibbons, treasurer; Mrs. T. Fairless, social; Mrs. M. Watson, membership; Mrs. W. Petrie, sick committee; Mrs. A. Smith, publicity; Mrs. Shuck, sergeant-at-arms.

Addressing the new officers, Mrs. Swan spoke of work already accomplished by the young organization and work to be done in the year ahead.

Activities planned include a garden party and tea at the home of Mr. and Mrs. W. Petrie, 812 Dunsmuir Street, on July 23; a picnic at Willows Beach on July 27, and a bingo party on July 30.

A special visitor at the meeting was Mrs. F. Ayres, Guelph, Ont., who is the guest of her daughter, Mrs. M. Watson.

At conclusion of business, refreshments were served by Mrs. Fairless.

Club Calendar

Sketch Club of Island Arts and Crafts Society, home of Mr. and Mrs. J. E. Casson, 2779 Sea View Avenue, Ten Mile Point, Monday, meet at Coach Line Depot, Broughton Street at 1.30.

Members of combined chapters of the I.O.D.E. will meet at St. Mary's Church, Oak Bay, at 11 Saturday morning, to attend the funeral of the late Mrs. E. E. Wootton.

Personal Notes

Mr. and Mrs. Percy G. Sills, Lansdowne Road, have as their guests for the week-end, Mr. and Mrs. Ross White of Los Angeles.

Mr. and Mrs. E. H. Carey and their sons, Chris and Gordon, 234 Moss Street, are en route to California by motor.

New York visitors in the city for several weeks are Mr. and Mrs. Harry Ward, who are guests at the Empress Hotel.

Mr. and Mrs. J. Fitzgerald with their son Robert motored from Pasadena, Calif., to visit their cousins, Mr. and Mrs. A. M. Robertson, 1790 Lee Avenue.

Mrs. C. F. Cairns was a tea hour hostess at Cherry Bank Hotel Wednesday, in honor her sister-in-law, Mrs. E. C. Cairns of Wheaton, Illinois.

Mr. and Mrs. "Sandy" Low, Page Road, Happy Valley, have as their guests Mr. Low's mother, Mrs. A. Low, Sr., also Mr. and Mrs. J. Kingwell, of Rosetown, Sask.

Mr. and Mrs. H. J. Kerrigan of Wallsend, England, who have arrived in the city to make their home, are at present the guests of Mr. and Mrs. J. Smith, Lyall Street.

Mr. and Mrs. A. H. Adams, with their daughters, Jean and Grace, have returned to their Beach Drive home following a three-month visit to relatives and friends in the British Isles.

Mrs. H. F. Crowe was a luncheon hostess today at the Victoria Golf Club, in honor of Mrs. H. G. Haller, Ann Arbor, Mich., who is spending two months in Victoria. Covers were laid for 12.

Mr. and Mrs. James Stewart, of Toronto, who have been vacationing at the Empress Hotel for the past ten days, left Thursday night for Jasper and Winnipeg, en route to their home in eastern Canada.

Major and Mrs. A. McInnes, New Westminster, are in the city to attend the marriage of their daughter, Miss Muriel McInnes, which takes place tonight. Major and Mrs. McInnes are guests of Mr. and Mrs. John Astorpe, Darwin Road, while here.

Mrs. Warren Hilton entertained 30 friends at luncheon and tea Thursday in the garden of her home, 1715 Rockland Avenue, to honor Mrs. A. B. Durnford and Mrs. A. Springett of Montreal. A garland of pastel pink dahlias decorated the table.

Mrs. Margaret Pugh, Vancouver and her daughter, Miss Deluth Pugh, Regina, left the city Thursday after spending several days with Mr. and Mrs. A. Pimlott, 65 Cadillac Avenue. Mrs. Pugh and her daughter also visited other relatives and friends while here.

Mr. and Mrs. J. K. Hodges, entertained at an after-five party at the Empress Hotel Thursday to honor Mrs. Lloyd Gabel of Hamilton, Ont., who is staying at the Empress Hotel. Mrs. Gabel will be joined today by Miss Wood, Hamilton, and Mr. Wood, New York.

Miss Sheila Chippendale, who has been the special guest of the Canadian Authors' Association in Victoria, and her mother, Mrs. Thomas Chippendale, left Thursday for their home in Vancouver. While here, they were guests of Mrs. Emily Hethey, King George Terrace.

Among guests attending the marriage of Miss Phyllis Dilworth, niece of Mr. Ira Dilworth of Victoria and Vancouver, and William Inglis, whose marriage will take place at Ryerson United Church in Vancouver Saturday evening are Mr. and Mrs. A. Richardson, parents of the groom-elect; Miss Marion Inglis, sister of the groom-elect, who will act as bridesmaid; Mr. and Mrs. T. Southern, Mr. A. Dyson, Mrs. Topham, Mrs. L. McLellan, Mrs. H. W. Brien, Mrs. M. Richardson, Mrs. J. Reid, Messrs. Peter Campbell and Kenneth Cade, who will act as ushers at the wedding.

Miss Irene Hall, a July bride-elect, was honored at a surprise shower held at the home of Mrs. Claire Clarke, 456 Sturdee Street. Upon arrival Miss Hall was presented with a corsage bouquet of pink roses and stephanotis. Mrs. M. Hall, mother of the bride-to-be, and Mrs. Moore, mother of the groom-elect, received carnations and sweet peas. The many gifts were concealed in a wishing well decorated with white, green, and pink crepe paper, above which hung a bucket of artificial flowers. Invited guests were Mesdames Nielson, A. Pellow, E. Hoyt, I. Cresine, Williams, J. Haverty, Hulley, D. Calder, Granlin, James, Goodwin, P. Herold, Misses Moore, Margaret Ord, Joanne Hallam, Mary Williams, Betty Jeanneret, Peggy Nielson, Thelma Amos and Joyce Beecher.

table when Mrs. C. N. Smith, Wollaston Street, entertained for Miss Joyce Eileen Whiteoak, a bride-elect of this week. Corsage bouquet of sweet peas was presented to the principal along with miscellaneous gifts. Guests were Mesdames H. Whiteoak, D. Carlo, R. Liska, W. Holland, H. Beaumont, L. DeCosta, V. Smith, W. Smith and Misses Ruth Rasmussen, Phyllis Smith, Audrey Smith, Jean Smith and Dorothy Wingert, Vancouver.

Mrs. A. T. James who has been holidaying in the city for the past week at the home of her son-in-law and daughter, Mr. and Mrs. R. Watson, Beach Drive, leaves today for Seattle before returning to her home in Vancouver.

Mrs. Norman Noakes, with her daughter Joan, and Mrs. Jack Wayman with her son Easton, all of Saskatoon, Sask., are in the city to attend the wedding of their brother, Mr. Kenneth Greenhough to Miss Wilma Kirkpatrick, which takes place tonight.

Yellow carnations decorated the home of Mr. and Mrs. A. Richard, son, 114 Wildwood Avenue, Thursday evening, when they entertained in honor of their daughter, Miss Marion Inglis, who celebrated her 21st birthday. Guests included Mr. and Mrs. R. Watson, Mr. and Mrs. R. McCorkill, Mr. and Mrs. W. Tildesley, Mr. and Mrs. P. Winn, Mesdames H. Brien, R. Gough, B. Irvine, J. Reid, M. Richardson, Misses G. Cohen, Kay Lockley, Florence Larinde and Messrs. William Inglis of Vancouver, and Peter Campbell.

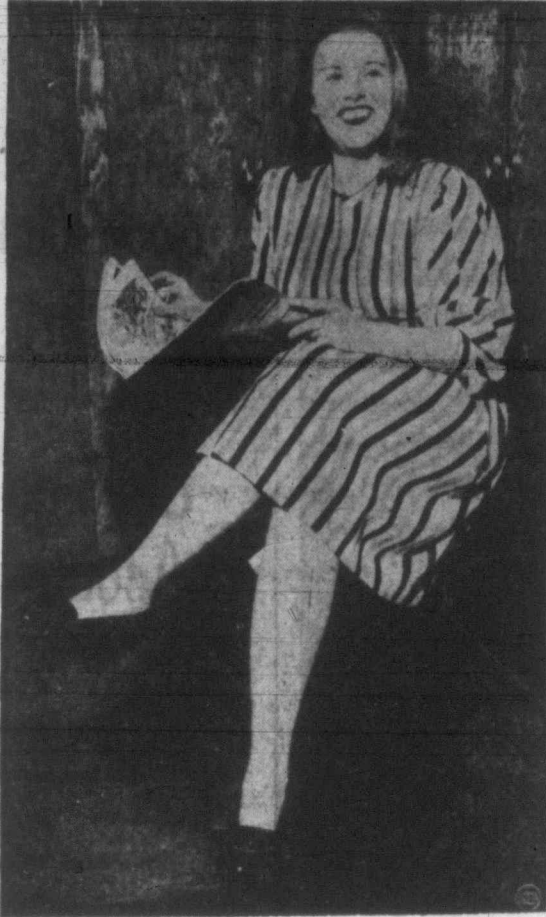

A pink and white basket decked with blossoms held miscellaneous gifts for Miss Connie Sullivan, July bride-elect, when Mrs. J. D. Taggart entertained Thursday at the home of her parents, Capt. and Mrs. W. Wingate, Niagara Street. Miss Sullivan, her mother, Mrs. Albert Sullivan, and mother of the groom-elect, Mrs. J. G. Fox, were presented with corsage bouquets. Pastel sweet peas flanked by pink candles in silver holders centred the refreshment table. Invited were Mesdames G. Cowan, R. Whiteley, A. Bamford, W. J. Wade, W. Wingate and Misses Enid Fox, Noreen Friker, Jean Mitchell, Joey Wilson, Mildred Irwin and Betty Girvin.

Her Biggest Thrill—Walking

Betty Jane Lampe, 22, of Chicago, who walked for the first time earlier this year, promises to dance at her own wedding party this summer. The blue-eyed blonde was born without feet and had her lower legs amputated a year ago so she could wear artificial limbs. She is pictured in office of Chicago manufacturer wearing her new legs for the first time.

Dorothy Dix

TALENT ACCORDS MUCH
COMFORT BOTH SOCIALLY
AND IN BUSINESS

One of the greatest gifts that can be bestowed upon any human being is adaptability. It is a talent that secures its fortunate possessor happiness and prosperity, while the lack of it forebodes him to failure and loneliness never fitting in anywhere.

If this seems a sweeping assertion, you have only to consider the people you know to realize that their disposition are a greater factor in making their careers a success or a flop than their brains are. For everybody gives the chap, who is half-fellow-well-met, and who can be equally friendly with a bishop or a bartender, a handup, while they leave the man or woman whose whole personality is set in solid concrete to shift for themselves.

It is tragic when you think that the lack of adaptability is at the bottom of so much human misery. Take the matter of making a living, for instance. There are thousands upon thousands of men and women who have health and strength and intelligence and industry who are in the bread line, simply because they could not adjust themselves to any kind of work that came handy. They aspired to being professionals and wasted their lives knocking at stage doors, or attempting to be glamorous models, when Nature made them carpenters and cooks.

LONELY SOULS

And think of the lonely souls who have no companionship because they cannot adjust themselves to the people among whom their fate has thrown them. I once knew a woman who boasted that she had lived for 20 years in a small town without getting acquainted with a single person in it beyond the butcher and baker and candlestick-maker.

Think of all the friendliness and kindness and good talk that she missed. Yet every day we meet people who refuse to fit themselves into the communities into which they go to live. They are isolationists who can live a lifetime without inquiring the name of their next door neighbor, or passing a pie over the fence.

And isn't it lack of adaptability that wrecks more homes than any other one cause on earth? No man and woman ever get married with the deliberate intention of getting on the other's nerves and being in a perpetual fight over trifles. They expect to live in peace and harmony, or else wild horses couldn't drag them to the altar.

FADS AND HABITS

But what happens? Each of them has a lot of little opinions and fads and habits that they would rather die than give up, or change, and they squabble over these until they kill love. And the husband takes to philandering, and the wife weeps until she loses her complexion and becomes a domestic martyr.

Apparently it doesn't occur to the average husband and wife that a man and woman born of a different heredity, reared in a different school, are bound to look at everything in life from a different standpoint, and that the only way that they can possibly make a happy marriage is for them to adjust themselves to each other.

It is not given to many of us to have life just as we want it; to live in the environment that we prefer; to be able to do the work that we desire, and to be surrounded by congenial people. But we can take the sting out of our disappointments and make our lives happy and contented if we will only adapt ourselves to circumstances.

And this is something that the men and women with the cast iron backbones, with no hinges in them, would do well to remember.

Country Fals—Final arrangements were made at a meeting of Luxton and Happy Valley Women's Institutes for a country fair and flower show to be held next Wednesday at Luxton Hall. Mrs. A. Turner, Langford Women's Institutes will open the affair at 7:30 in the evening. Flower decorated tables will be judged by Mrs. E. Pollock and

Winnipeggers Plan To Work
Their Way Around The World

SYDNEY, Australia (CP)—Two Winnipeg girls are taking a breathing spell in Australia on their trip around the world. The girls are Miss Violet Houck and Miss Essie Pattison, who served in the R.C.A.F. (W.D.).

The young women are seeing the world the hard way. Both 25 years old, they plan to work as they go to raise travelling funds. They expect to spend six months in Australia before heading on.

Globe-trotting has been Violet's life-long ambition. When she met Essie in the R.C.A.F. she talked so eagerly that her fellow Winnipegger also acquired the longing to pack a suitcase and head for strange lands. At one time the girls lost touch with each other, but they met accidentally last year after discharge and laid plans for travelling.

Essie, a telephone operator in the R.C.A.F., was a qualified stenographer but her friend, who says she was an equipment assistant, had no training for office work. So she took a business course in Winnipeg because the girls reasoned that with such a background they could obtain employment anywhere.

"DOWN UNDER"

They applied last October for passage to Australia and ob-

tained berth on a ship which arrived here in May.

The two Canadians found themselves in the limelight because of their wanderlust. They liked the pictures taken by Sydney newspapers, but regretted that both their names were misspelled.

Leaving Canada as spring was breaking they reached Sydney at the beginning of winter and during a week-long stretch of rainy weather. The young women keenly felt the chilly climate. Few places have steam heat and the two Winnipeggers huddle over a small electric radiator to ward off the shivers. With the exception of the weather, they like what they have seen of Sydney.

Following a stay in Sydney the girls will work their way to Perth in Western Australia. There, they hope to catch a ship for South Africa. Until the world situation becomes more stable they will restrict their travelling to countries with ample food.

Violet Houck and Essie Pattison are uncertain how long it will take them to tour the world but their travelling will continue when they get back to Canada. They will visit that part of the Dominion they haven't seen—the East.

N. Pollock. There will be fruit and vegetable displays and junior classes for miniature gardens, needlework, hobbycraft and bantam eggs. Other attractions include stalls of home cooking, needlework, novelties, also bingo games, hot dogs and coffee. Mrs. J. Woods presided at the meeting and Mrs. L. J. Willing was appointed to represent the institute on the water board. It was announced that members will exhibit handicraft at the Langford Fair on Aug. 6.

Church Of Our Lord
Fete Realizes \$200

A sum of approximately \$200 was realized at the annual garden party of the Church of Our Lord, held in the spacious grounds at the home of Mr. and Mrs. C. E. Laundry, 1833 Beach Drive.

Sir Henry Drayton, introduced by Rev. D. L. Gordon, opened the affair and following the ceremony little Miss Sally Laundry presented Lady Drayton with a bouquet of carnations.

Stalls of home cooking and flowers, convened by Mrs. Adamson, Mrs. E. Cridge and Mrs. R. H. Snape, were arranged under the oak trees on the front lawn, also clock golf and ping-pong under supervision of R. H. Snape.

Afternoon tea, convened by the Ladies' Aid was served in the rose garden overlooking the sea. Those assisting with tea arrangements were Mrs. S. Martin, Mrs. J. Mossop, Mrs. C. Newbury, Mrs. E. Creech, Mrs. R. Dunn, Mrs. S. J. D. Clack, Mrs. K. Dauphinee, Miss A. Dunn and the Misses Hawthorne.

VEL* works magic!

CUTS DISHWASHING TIME
3 WAYS

VEL penetrates, cuts grease, loosens dirt faster.

VEL eliminates wiping . . . makes dishes, glasses gleam . . . no streaky film to wipe away.

No dishpan ring with VEL . . . no soap scum to scour away.

JUST put a few teaspoonfuls of VEL in your dishpan (about half as much as soap.) Add water. VEL gives the water amazing new cleaning power that lasts long after suds dissolve. VEL removes grease faster, more completely than soap—in hardest water. Your dishes, glasses sparkle and shine without the touch of a towel.

VEL keeps stockings
sheerer, lovelier!

Says Shirley Underwood of
Toronto:

"After washing with VEL my nylons rinse bright and sheer as new! A few dips, a little gentle squeezing in lukewarm water, and VEL makes nylons and undies gloriously fresh! No dulling soap film!"

*VEL is a registered trade mark of Colgate-Palmolive-Peet Company Ltd.

VEL Quality Guaranteed by COLGATE

KEEPS MY WOOLENS SOFTER, FLEECIER
THAN ANY SOAP!

Says Mrs. S. Brown of Newmarket, Ont.:

"I've never had a wool sweater stay so soft and fleecy. Washed with VEL and lukewarm water there's no shrinking or matting, no clogging soap film—colours stay bright."

Gives water amazing cleaning power . . .
Cleans long after suds dissolve . . .
Makes hard water act soft . . .
Washes better even in cool water . . .
Economical—try using half as much . . .
Contains no alkalis, milder to hands . . .

VEL makes water
WETTER
to clean all things

WHAT IS THIS?—Apparently suspended in mid-air, man and microphone stand in a unique ultra-soundproof room at the Bell Telephone Laboratories, Murray Hill, N.J., where even a hushed heart-beat can be heard. Built for acoustical resonance reflecting surfaces. The working floor is a netting of 8/100-inch-thick steel cables strung under tension two inches apart. Below is another view of wedges. The room is 35 feet long, 28 wide, 28 high.

**Sufficient Pickers For
 Berry Crops Here**

C. M. Smith, area supervisor of the Dominion Provincial Farm Labor Board, expressed confidence today there would be enough pickers to harvest Vancouver Island's raspberry and loganberry crops, now at their peaks.

"This year there is an increased acreage for all small fruits and there is every indication of a record crop," he said.

A far greater number of pick-

ers have been sent out by the Victoria office of the farm labor board to the growers this year than last year.

Dr. T. W. A. Gray is attending to Francis Robinson for sprains and bruises which resulted when she and David Hamersley, 42 South Turner Street, were thrown from the motorcycle they were riding on Wednesday night about 9.15 in the vicinity of the intersection of Sooke Road and the Island Highway at Colwood. Constable N. J. Winegraden of the Provincial Police attended.

**Clothing Coupons
 Needed For Aprons**

LONDON (CP)—Aprons, pinafores and overalls may be essential for the working housewife, but they can't be bought without clothing coupons.

J. W. Belcher, the board of trade's parliamentary secretary, said in the House of Commons aprons of plastic material already were free of rationing, but to remove all aprons and overalls from the ration in the present state of supplies would lead to unfair distribution.

525 Suits Of Armor Being Made For Joan Of Arc Movie

HOLLYWOOD (AP) — Ingrid Bergman's next epic on the life of Joan of Arc is being planned on such a large scale that 10 Los Angeles manufacturing plants have been contracted to make armor for the film's actors.

The plants, which formerly did war work, will use assembly-line methods to stamp out and mold 525 full suits of armor, plus 215 partial suits. They will be made of magnesium and the full regalia will weigh but 18 pounds, plus 12 pounds of mail.

Ingrid has already tried on her suit, which is made of aluminum. It permits sitting, kneeling and other comforts unknown to knights of old.

Orson Welles heads for England after "Macbeth" to discuss his next picture with Sir Alexander Korda. It may be "Salome" or "Around the World in 80 Days," from Orson's stage production. He isn't planning any more screen Shakespeare until he sees how the public reacts to his first effort.

Charlie Chaplin still plans to make more movies and is work-

ing on two stories at home. Neither contains his old tramp character, which he feels is not in keeping with the times.

Errol Flynn will start "Don Juan" in September and has set the first of the year as his sailing date for Africa.

POPULAR BOB
Bob Hope is a popular man with the girls, no matter what he might say. Barbara Stanwyck, Ida Lupino and Joan Caulfield have all expressed willingness to appear in his "Paleface." What ever happened to his deal with Jane Russell? Billy Wilder takes a five-man crew to Germany at the end of the month to film backgrounds for "Foreign Affairs." They'll shoot seven weeks in the American, British, French and, they hope, Russian zones.

Alice White, of the "Flaming Youth" era films, is playing a shady lady in "Time of Your Life" and having the time of her life. Happily married to a screen writer, she took the job on a dare and now wants to do more work. She looks beautiful and blonde—had to dye from red for the role.

PLAZA THEATRE
Indicative of the cosmopolitan nature of International's "Temptation," at the Plaza Theatre, is the fact that six languages, including French, Arabic, Spanish and Greek, are spoken in the film, a drama of intrigue in Cairo. In addition, the four stars, Merle Oberon, George Brent, Charles Korvin and Paul Lukas were born in foreign countries, respectively. Tasmania, Ireland, Czechoslovakia and Hungary.

Ronald Reagan, Alexis Smith and Zachary Scott are co-starred in Warner's "Stallion Road," a love story of ranch life, currently at the Royal Theatre.

Veteran Portrayer Of Men Only 32

Lee J. Cobb, the character actor who has portrayed only old men on the stage and screen, believes there is a good reason for his being typed—he grew bald at the age of 21.

Cobb's interest in dramatics were originally aroused through the usual medium of school plays, but by the time he was 18, he was making the rounds of managers' offices with a conspicuous lack of success. Every one told him he was too young.

However, only two years later, when he felt he could convincingly tell agents and producers that he was nearing 30, he promptly began to lay the groundwork for his Broadway reputation.

The result was that by the time he reached voting age, he found himself well established as a portrayer of elderly men both in Hollywood and New York.

As the Connecticut chief of police in Darryl F. Zanuck's presentation of "Boomerang," the 20th Century-Fox picture which stars Dana Andrews and opens today at the Capitol Theatre, Cobb is only in his late fifties. Even that is rather young, he laughs.

"I usually am around 70 years old. My old-man hobbling, when I was a kid, was so realistic I've never really been able to get the impression erased from the minds of the casting experts," he confesses.

The 22-year-old actor hasn't had a single young man's role to his credit anywhere in the crowded repertoire of his professional career. The youngest man he ever played was one 45 years old.

ATLAS THEATRE
The lives and wartime work of the famous English women's Royal Naval Service—"Wrens"—to you—have a prominent role in M-G-M's exciting new drama, "Vacation from Marriage," currently at the Atlas Theatre. It's the poignant tale of a drab housewife who emerges a butterfly after three years as a Wren and decides she can no longer go back to her old life or her husband in a role as memorable as his "Mr. Chips." The noted British star, Deborah Kerr, is the wife. It's a drama as vital and exciting as today's newspaper headlines.

Mexico Cutting Down On Imports From United States

MEXICO CITY (AP) — The Mexican Government enforced today drastic restrictions on the importation of luxury and non-essential goods to protect her dwindling dollar balance with the United States.

The announcement was made Thursday night by Secretary of the Treasury Ramon Beteta, who said Mexico's dollar balance in the United States at the end of the war was about \$355,000,000 and that it had dwindled now to about \$2,000,000,000. Beteta said importation of goods in 23 general categories would be prohibited.

Among prohibited items are furniture, washing machines, rugs, automobiles, pianos, radios and watches.

'Stallion Road' Opens At Royal

"Stallion Road," a Warner Bros. love story based on Stephen Longstreet's best selling novel, is the new film showing today at the Royal Theatre. Co-starring Ronald Reagan, Alexis Smith and Zachary Scott, the featured players include Peggy Knudsen, Patti Brady, Harry Davenport and Angela Greene in important roles.

Produced by Alex Gottlieb, "Stallion Road" was directed by James V. Kern and photographed by Arthur Edson, A.S.C. The film was produced with the co-operation of the American Humane Association.

Dana Andrews and Lee J. Cobb provide a line-up of murder suspects for eye-witness to the brutal slaying of a clergyman in the Darryl F. Zanuck presentation of "Boomerang!" the Twentieth Century-Fox film drama opened today at the Capitol Theatre.

Says Commonwealth Conference Coming

LONDON (CP) — The Evening Star gossip column declares a Commonwealth conference is likely to be held in London after Princess Elizabeth has been married to Lieut. Philip Mountbatten to discuss "a number of empire constitutional issues."

The column said it was understood the conference "probably to be conducted by the Empire Prime Ministers would deal with the removal of the few remaining indications that Britain enjoys superior status over the other Dominions in the Commonwealth."

Britain Taking Steps To Insure Atomic Secrecy

LONDON (Reuter) — The News Chronicle said today that the British government is tightening up measures to insure atomic secrecy.

The front-page article by the newspaper's science editor said Home Secretary Chuester Ede "has taken powers under statutory rules and orders (1947) declaring to be prohibited areas under the Official Secrets Act of 1911 the atomic research and development station at Harwell, Oxfordshire, the department of atomic energy at Risley, Lancs., and the ministry of supply factory at Springfield, Lancs."

The order applies to information with respect to these stations or of damage to them which would be "useful to the enemy," the story said.

This order has been unobtrusively introduced and extends the penalties applicable under the Atomic Energy Act of last year. "Disclosure of atomic information under that act carries a penalty of five years' imprisonment, but much more drastic sentences are exacted under the Official Secrets Act."

The article mentioned that under this act Dr. Alan Nunn May, a British scientist, was sentenced to 10 years' imprisonment.

Dr. Nunn May was sentenced last year for disclosure secrets about the atom bomb while working in Canada.

Protest Increase

VANCOUVER (CP) — South Vancouver district ratepayers went on record Thursday night as being against the recent \$1,000 yearly increase in salary voted by the city council for aldermen. A resolution was adopted noting that civic employees, in their recent wage fight, obtained an increase of only eight cents an hour.

Rail Board Ends Freight Rate Case Regional Hearings

MONTREAL (CP) — The Algoma Steel Corporation objected Thursday to freight rate increases as asked by the railways, declaring they would "seriously jeopardize" the company and the community economy of Sault Ste. Marie, Ont.

A brief from the company, which employs 4,500 workers at Sault Ste. Marie, told the Board of Transport Commissioners the 30-per-cent general rate increase sought by the railways would "endanger" Algoma's competitive position.

The corporation did not object to swelling railway revenues through rate hoists, declaring "railway earnings should be maintained at a fair level," but it declared outright opposition to the principle of a flat general increase.

The Algoma brief, read by J. Gordon Fogo of Halifax was the only presentation made as the commissioners held a Quebec regional hearing in their national freight rates inquiry. At its conclusion the board adjourned to meet at Ottawa Monday. This was the last in a series of regional sessions held across the Dominion in the last seven weeks.

To Question Pétain On Fall Of France

PARIS (AP) — Fifteen members of an investigating committee which is trying to establish responsibility for France's collapse in 1940 were at the Ile d'Yeu today to question former Marshal Henri Philippe Pétain, former Vichy Chief of State.

Pétain has been a prisoner on the Isle, situated off France's Atlantic coast, since he was convicted of treason in 1945. Pétain originally was sentenced to death, but the sentence was commuted to life imprisonment by Gen. Charles de Gaulle, then head of the French Provisional Government.

Eastern Canada Tennis Stars Arrive

Jim Macken, Don McDiarmid, Henri Rochon and Brendan Macken, four members of the six-man eastern Canada tennis team, who arrived in the city yesterday afternoon for the west-east Davis Cup trials, which will be staged at the Victoria Lawn Tennis Club next week. Rochon is present holder of the Quebec and Ontario singles championships. The Macken brothers are holders of the 1946 Canadian doubles title. McDiarmid was a member of last year's Canadian Davis Cup team as were Brendan, Macken and Rochon. Team captain and manager Gordie McNeill of Montreal and E. J. Lanthier of Montreal, two remaining members of the team are expected to arrive later in the week. Following the trials the sextette will compete in the Canadian championships at Vancouver. Personnel of the western team for the trials has not been announced.

Don Black Comes Up No-Hit-No-Run Game

Don Black, the reformed Cleveland's right-hander, set the baseball world on its ear with the first no-hit, no-run game of the American League season last night, a 3 to 0 job against Philadelphia in the first half of a twilight double-header at Cleveland.

It was the first American League no-hitter since Bobby Feller held New York Yankees hitless at Yankee Stadium on April 30, 1946. Cincinnati's Ewell Blackwell had turned in a no-hit job against Boston in a June 18 National League game earlier this season.

Black, who was converted to alcoholic anonymous during the winter walked six men in a shaky start and struck out five in his bid for a spot in the hall of fame, and his seventh win of the year. Feller came along to cop his 11th decision in the night game, 2 to 1, although Manager Lou Boudreau had to call on Ed Killeman when Bobby ran into trouble in the ninth.

Southpaw Joe Page won a game for New York Yankees with his hitting when he smashed a ninth-inning homer to give the leaders a 4 to 3 edge over St. Louis Browns last night for their ninth straight victory.

Boston and Detroit battled eight innings to a 2 to 2 tie in a twilight game called on account of darkness.

TIMELY HOMER

Cincinnati took Boston Braves under the lights, 2 to 1, on Babe

Young's homer with a man on. Boston had taken the first game of the day-night doubleheader, 6 to 4, with a 16-hit attack that included two homers by Tommy Holmes.

Brooklyn Dodgers, who won two afternoon games from Chicago Cubs, 5 to 3 and 4 to 3, with Ralph Branca getting credit for both victories, still had reason to fear the onrushing St. Louis Cards.

The Red Birds, defending champs, cut loose with a 15-hit attack to submerge New York Giants in a night fixture, 11 to 4. Branca's twin successes, neither of which was a complete game, boosted his season total to 14 wins, matching Blackwell.

Jackie Robinson's two-run homer in the third helped pile up an early lead for the Brooks in the opener.

Chesnes Pitches 16th Victory In Coast League Ball

If there were more pitchers like Bob Chesnes and Rugger Ardizioia around the Coast League, the Los Angeles Angels wouldn't be sailing along three games in front.

Ardizioia, the Hollywood right-hander, stopped the Angels cold with three hits last night as the Stars racked up an easy 11 to 1 win. Chesnes, the loop's hottest hurling article, won his 16th game against six setbacks as second-place San Francisco trimmed Oakland, 8 to 2, and gained a lap on the Angels.

Chesnes again did everything but tend the bats as he set the Oaks down with seven hits and smacked out four himself including a double and triple. The Seals maltreated Floyd Speer and Tom Hafey with 14 bingles in taking a two-games-to-one series lead.

Sacramento and Portland pulled into a fourth-place deadlock as the Solons whipped Seattle, 7 to 6, and the Beavers measured San Diego again, 9 to 7.

It was an extremely unlucky night for Seattle. Second baseman Tony York gummed up two double plays to set up the pins for the Solons' winning four-run rally in the eighth.

Record Crowd Roars As Bob Jensen Winner

Bob Jensen, fireball right-hand pitcher, just about proved he is Mr. Baseball in Victoria as a record crowd of 5,500 turned out last night to watch him set down Vancouver Capilanos 12 to 4, for his second W.I.L. victory since joining the Athletics last Sunday. Making his first home appearance Jensen received tremendous ovation from the largest attendance since the return of pro ball here last season.

Victory moved the A's within half a game of second-place Spokane and within four games of the leading Bremerton Bluejackets.

Jensen, beyond doubt the most popular player to show here, gave the fans their money's worth. Returning to the W.I.L. from the San Francisco Seals of the Coast League, "Rapid Robert" got himself into a couple of bad jams then proceeded to pitch himself out of trouble. He gave up 12 hits, all singles, and held the Caps to two runs until the ninth when he appeared to ease off with a large lead and the visitors got to him for three hits and two runs. He struck out nine and walked six.

Jensen brought the fans to their feet twice in the early innings. In the fourth, with the score at 2-all and the bags loaded, he struck out Red Tran and Jim Hedgecock in succession. Again in the fifth Vancouver had three on with only one away but Jensen took Charlie Mead on strikes and forced Bill Reese to pop up to first sacker Harshman.

TWO HOME RUNS

Athletics broke through for a lone run in the first frame, Patterson getting a base on balls and scoring on Bill White's line double to deep left. Three singles by Mohr, Hjelma and Tran gave Caps the tying run in the top of the third but White gave Victoria the lead again with an inside the park home run in the bottom half of the inning.

One hit along with shortstop Johnny Cavalli's boot allowed Vancouver to tie it up again in the top of the fourth. The A's came back in their half to shove five runs across, the scoring spree being featured by Johnny Hooper's homer over the centre field wall with Bob Jensen and Pat Patterson aboard. All the scoring came after two men were out.

Athletics added another pair in the sixth on a couple of errors by Hjelma and Hedgecock, a balk by the latter and Hooper's single. One base blows by Harshman, Babe Jensen and Cavalli and Rightetti's double gave the Victoria club its final three runs in the seventh.

Bill White with three for five was the big stickler for the A's as every member on the club picked up a base knock with the exception of catcher Vic Mastro.

BREMERTON BEATEN

Bremerton's Bluejackets continued today to defy the unwritten law that a baseball team must win at least 50 per cent of its road encounters to stay in contention for the pennant.

The Jacks absorbed their 15th straight road defeat last night. The latest losing was administered by Tacoma by a 3 to 1 count. Runner-up Spokane also had road troubles, dropping its third straight to Salem, this time by a 9 to 5 margin.

Wenatchee toppled Yakima 9 to 2.

Tacoma's Gordon Walden spaced out seven hits and put down the last 15 Bremerton batsmen in order in besting the loser's Hub Kittle.

Kenny Wyatt, Salem left-hander, almost singlehandedly bested Spokane. He gave up but nine hits and was credited with driving in seven runs. Twice he came up with doubles when the bases were loaded.

Bremerton, Kittle and Ronsing; Walden and Clifford.

Wenatchee 9 10 2

Yakima 2 9 5

Batteries—Cronin and Dalrymple; Strait, Simon (4) and Constantino.

Batteries—Wesowski and O'Neil; Wyatt and Beard.

Bays Hand Legion Third Straight Boxla Setback

If you happen to see a worried looking individual walking around town these lunch hours with a lacrosse form in one hand and a whip in the other it will probably be Ed Hall, manager of the Canadian Legion box lacrosse team.

Blessed with what appeared to be the cream of local boxla talent at the start of the season, Hall has literally seen his team disintegrate during the past few weeks to lose three consecutive games. Last night the Vets suffered their greatest humiliation to date when the lowly cellar-place James Bay squad smote the orange shirts 7 to 5.

Result of the game still leaves Legion in a first-place tie with Foul Bay in league standings, each with seven wins and three losses. Tonight, however, Foul Bay tangles with the Jokers at Stevenson Park at 7 and can break the deadlock with a triumph. Incidentally, if Foul Bay wins it will be their eighth straight.

Ian Horne was the hero of the J.B.A.A. victory. The big defence-man punched home the only two fourth period goals to break a 5 to 5 deadlock and ensure his mates of victory. Playing coach Tom Carney and Bob Aitken, the guardian, played a major role in the Bays win, their defensive work sparking on several occasions.

Other leading goal-getters were Ay Denoni of J.B.A.A. and Darrell Popham of Legion, each with two.

Teams and scorers follow: Legion—Long, T. McKeachie, F. Ramson, I. Ferguson, McKim, J. McKeachie, L. Mair, Mason, I. Popham, D. Andrews, Bryant and Allen.

J.B.A.A.—R. Aitken, Tyson, Sargent, Lomas, Winters, I. N. Coates, I. Horne, D. Reid, Rynski, I. Cummings, Denoni, J. Jenkins and Carney.

Paper Heels Wins To Return \$115.70 At Mainland Meeting

VANCOUVER (CP)—Punters who happened to be on the right horses were well paid off at Lansdowne Park here Thursday for the second day in a row. Paper Heels romped home in the fourth to return \$115.70, a price topped this year only by the \$147.50 repaid place bettors Wednesday by Minaki in the eighth. Winners in the fourth, fifth, sixth and seventh races paid off in double figures.

The second tumble in two days on the Lansdowne track occurred when Mischief Cord fell just before the quarter turn. Neither the horse nor Jockey J. Repose was hurt. Wednesday Gallant Simon died of a broken neck and Jockey Paul Bailey suffered slight concussion during a four-way pile-up in the seventh race.

Both the daily double and the quinella paid small prices, the first returning \$11.50 and the one-two \$7.30.

Results follow:

FIRST RACE—Claiming; four-year-olds and up, foaled in Canada; six furlongs.

Entries For Junior Golf Championship Close Tonight

Entries for the Victoria and district junior golf championship, which will be held Sunday at Colwood, close tonight, it was announced by the Victoria District Golf Committee. Post entries will be accepted.

Open to all boys living in the immediate vicinity of the city who have not yet reached the age of 18 years, the tourney will consist of 36 holes medal play.

Rules of the R.C.G.A. and the Colwood Club will govern the tournament.

The Maurice Carmichael trophy will be awarded to the winner, who will also receive a replica of the trophy for his permanent possession.

TONIGHT'S DRAW

5.30—Edwards and Bennett vs. Mitchell and Sinclair; McArthur vs. Williams.

6.—Flights: Mrs. Bennett vs. Miss Clague.

Pigeon Racing

The Victoria Racing Pigeon Club held its last race of the old bird season from Ashland, Ore., a distance of 435 miles. Fourteen birds from four lofts took part.

Duck Crops In Western Canada Reported Large

NEW YORK (AP)—Large wild duck crops in many areas of western Canada's nesting range have been assured by constant water levels throughout the southern prairies and other conditions also continue to favor 1947's waterfowl season, Ducks Unlimited reported today.

Albert N. Day, director of the United States Fish and Wildlife Service, mailed recommended dates for duck hunting to the state game commissions Tuesday. They were not made public, but Day had previously indicated he would suggest that the season and the bag limits in the United States be reduced from those of a year ago.

Last year shooting was permitted 45 days with the bag limit cut to seven from 10 allowed in 1945. The hunting season that year was 80 days. Day estimated that the 1947 duck population would be 26,000,000 below the 80,000,000 of 1946.

Bert W. Cartwright, chief naturalist of Ducks Unlimited, said in the report that as many ducks had returned to western Canada for nesting as in the previous

Edwards Reaches Semifinal Round In City Tennis

All events in the city championships at the Victoria Lawn Tennis Club are rapidly reaching the later rounds in preparation for semifinal and final round matches tomorrow and Sunday.

With Henry Bennett and Carl Brand already in the semifinal bracket of the men's singles, John Edwards was named to fill the third slot, when he came through with a 6-2, 6-3 victory over Ron Mitchell in last night's play. Mitchell who holds both the C.P.R. and B.C.E.R. club championships, was no match for the veteran navy player.

One more finalist is yet to be named in the men's singles event and this will be decided tonight when Dave Williams engages Jim McArthur. McArthur won a straight set victory from Charles La Rose Thursday evening, 6-4, 6-4.

Beryl Keyes and Peggy Jackson, last year's women's champions, won their way into the final round of the ladies' doubles by scoring a 6-3, 7-5 victory over highly favored Dot Edwards and Patience Brierley. Meanwhile in mixed doubles play Dot and John Edwards advanced with a two-set victory off Mrs. Williams and Parker, while Mrs. Brierley and Eric McCallum were not extended in defeating Beryl and Ernie Keyes.

A six-run rally in the seventh inning, after trailing by one run, gave the airmen their well-earned triumph.

Adverts Turn Back Eaglelettes In Senior Women's Softball

Scoring four runs on six hits in the first inning, Adverts went on to chalk up a 6 to 3 win over Wally Yeaman's Eaglelettes in a senior A women's softball game last night.

Bob Whyte's squad picked up single tallies in the third and seventh frames, while scoring for the Eaglelettes was confined to one run in the third and two in the seventh. B. Pollard was the winning pitcher with Oster, the loser. J. H. and E. swamped Sidney 19 to 5 in a women's senior B contest.

R.C.A.F. flyers clubbed out a 12 to 9 verdict over Dominion Meat Market in a men's senior B game to drop the losers into second place. Army and Navy Veis took over the league leadership.

The Salmonbellies overcame a seven-goal deficit in the last quarter to take the contest. Leading in the scoring play for the winners was Bob Bremner with five goals.

S. J. Evans Leads Field In Island Senior Golf Play

With a gross score of 159 for 36 holes, S. J. Evans was the leader in the annual Vancouver Island Senior Golfers' Association. Playing over the Uplands course yesterday Evans added a 79 to his 80 of the previous day at Colwood.

H. F. Hepburn, leader at the end of the first round with a 79, was in second place with 160, shooting an 81 yesterday.

To the winner will go the Premier Hart trophy.

Evans was also first in the battle for the low net honors and possession of the W. and J. Wilson trophy with 66-65-131. Runner-up with 71-61-132 was Dr. H. H. Livsey, who also posted the day's low gross score of 71.

Third and final round was played at the Victoria Golf Club today.

Net scores yesterday follow:

Evans 65; E. Mackenzie-Orville 66; Rev. P. Comley, A. Buisson and Dr. W. G. Wilson 67; N. Adams and C. J. Robertson 68; T. E. Mayerson, P. Smith and P. P. Ellis 69; B. C. Trevis 70; T. H. Newton, A. Thomas, A. E. Irish, A. Anderson and R. Burland 71; C. A. Thompson, J. C. Matheson, D. W. Spence, H. E. Hepburn and A. Buss 72.

G. Stokes, C. S. Langille and C. W. Crass 73; C. L. McLaughlin, J. L. Bell, H. C. Hinks and W. D. Johnson 74; A. McGowan, G. L. Whitby, W. McMillan, G. E. Goodwin and A. Leeming 75; N. E. Sudgaby, J. P. Part, R. H. Lyon, R. F. Barnes and C. E. Smith 76; W. S. Fowler 78; E. Gault and F. R. Pike 79; G. H. Bevan and R. McLeod 80; C. C. Wright 84; R. W. Watson 87.

To See Ball Game

Through the co-operation of the Victoria Athletics and the Victoria Optimist Club, 60 underprivileged youngsters will be given a day at the ball park on Saturday.

Tickets for the afternoon game have been given by the A's business manager, Reg Patterson, and transportation and refreshments will be provided by the members of the service club.

NEW WESTMINSTER (CP)—

The hometown Salmonbellies moved into a third place tie with Vancouver Indians in the Inter-city Box Lacrosse League here Thursday night, when they scratched out a 17 to 16 win over Richmond Farmers.

The Salmonbellies overcame a seven-goal deficit in the last quarter to take the contest. Leading in the scoring play for the winners was Bob Bremner with five goals.

Ottawa Sets Aside Sums To Improve Island Ports

A total of \$105,000 has been set aside for dredging, Victoria harbor, while sums ranging from \$9,500 to \$28,000 have been allotted for improvements to up-island ports by the federal government.

Supplementary estimates tabled Thursday in the House of Commons by Finance Minister Douglas Abbott also included sums for improvements to the Saanich Astrophysical Observatory, William Head Quarantine Station, Duncan Public Building, and a large sum for preliminary investigations and engineering at Campbell River.

Amounts allotted for harbor improvements and piers are as follows: Victoria—dredging, further amount required, \$105,000; Nanaimo—wharf repairs and improvements, further amount required, \$28,000; Bamfield—repairs and improvements to float and approach, \$17,000; North Galiano—\$9,500; Fords Cove (Hornby Island)—breakwater and float, \$14,000; Chemainus—harbor improvements, \$10,000.

The allotment made to Victoria harbor will cover expenses to dredge the inner harbor from Laurel Point to Point Ellice Bridge, to a depth of 22 feet.

With the \$40,000 set aside for Saanich Observatory, considerable improvements will be made to the grounds which includes the construction of a 700-yard path from the foot of the hill to the dome. This will provide a short cut for pedestrians who have been obliged to walk the mile and a half road to the observatory.

The sum will also cover expenditures for road maintenance and to cut 80 acres of broom as a safeguard against fire. A pipeline will also be installed for fire protection.

The \$16,500 allotted to the William Head quarantine station is for the maintenance and repairs of some 40 buildings on the premises.

The sum of \$100,000 was set aside for improvements and engineering investigations in the Campbell River district.

Vandalism Causes Power Cut-off

As a result of vandalism in the Glen Lake area, which has resulted in the breaking of several insulators on the distribution lines, B.C. Electric Line Department officials this weekend will be forced to cut off power Sunday morning to effect repairs.

J. W. Casey, line superintendent, reported a large number of insulators had been broken in the Glen Lake district, apparently by youths using slingshots.

"It is one of the most difficult types of vandalism we have to contend with because it means that service to large areas must be disrupted to effect repairs," he said.

The service will be off between 8 and 9.15 a.m. Sunday morning in the Sooke and East Sooke areas, Mr. Casey said.

Master Denis Leighton Whyte, who is a member of the well-known Mitchell Boys' Choir of Hollywood, will be guest soloist at the Sunday morning service at St. Andrew's Presbyterian Church.

Health Officials In B.C. On Guard For Polio Cases

Health officials throughout British Columbia are on the alert for poliomyelitis cases following reports of Dr. S. Stewart Murray, medical health officer, that the disease in Vancouver had reached epidemic proportions.

In Victoria Dr. J. L. Murray Anderson, health officer, said no case of poliomyelitis had been reported in the Greater Victoria area, while Dr. G. F. Amyot, deputy health minister for the provincial government, reported no case of poliomyelitis had been reported in B.C. outside of the Vancouver area.

Dr. Amyot said the disease in Vancouver appeared to be of an unusually mild type. Three new cases were reported in Vancouver Thursday.

So far this year the total number of cases reported stands at 29 in Vancouver, one less than the full-year record high of 30 established in 1910. Thirty-four cases have been reported in Greater Vancouver this year.

Dr. Murray said that although the situation was not anywhere as critical as past epidemics in other areas "according to our experience it is an epidemic and should be treated as such."

The disease in Vancouver has spread to the fashionable Shaughnessy district to strike a boy of three and one-half, hit a 48-year-old Mount Pleasant district woman and a six-year-old girl in Hastings East.

"There is no way to predict how long the situation will go on," Dr. Murray said, and again stressed mothers keep their children from crowded places such as theatres and beaches.

King Honors Victoria R.A.F. Fliers Killed In The 'Battle Of Britain'

The late Pilot Officer George Henry Corbett, son of Mr. and Mrs. H. C. Corbett, 2661 Estevan Avenue, was among those "gallant few" honored Wednesday by the King in Westminster Abbey ceremony.

After several stiff brushes with the enemy during the grim "Battle of Britain," P.O. Corbett was wounded and forced to bail out. He recovered in hospital and went back into the fight. It was on Oct. 8, while piloting a Hurricane fighter over the east coast as his squadron sought to intercept a strong enemy formation that he was fatally hit.

P.O. Corbett had gone to England in 1935 to work at the De Havilland aircraft factory, and two years before the outbreak of World War II joined the Royal Air Force Volunteer Reserve. A short while prior to the start of the Nazi march, he returned to Victoria to visit his parents and sister, Miss Phyllis M. Corbett.

When Britain declared war on Germany in September, 1939, he was called back to active service and left Victoria September 16 of that year for the last time. He spent a period in training before taking to the air against the Nazi winged hordes.

Mayors Urge Old Age Pension Be Lifted To \$50; No Means Test

WINNIPEG (CP)—The Canadian Federation of Mayors and Municipalities today passed a resolution recommending that the current amount of \$30 a month paid to present recipients of the old age pension be increased to \$50, that old age pensions be redesignated "retirement pensions," and that all means tests be abolished.

The resolution said the current pension was considered "entirely inadequate and insufficient" to provide pensioners with "proper food and decent clothing."

The federation, winding up its 10th annual conference under the chairmanship of Mayor Stanley Lewis of Ottawa, also passed a resolution urging the federal and provincial governments pay municipal taxes and local improvement or betterment charges on all crown lands within the municipal corporations.

Much of the time of the conference was devoted to a discussion of the financial relationship of municipalities to the provincial and federal governments.

Tax Pacts Voted

OTTAWA (CP)—The Commons this afternoon gave third and final reading "on division" indicating protest without a formal vote to government legislation to implement taxation agreements negotiated between the Dominion and seven provinces.

No D.P.'s For B.C.

VANCOUVER (CP)—Six hundred "displaced persons" will arrive in Canada August 1 to work in the lumber industry in various parts of Canada, but none of them are expected to work in British Columbia.

Special N.S. Session

HALIFAX (CP)—The Halifax Mail said in a front page news story today that the Nova Scotia Legislature would be called together during the second week in August to ratify the proposed five-year taxation deal with the federal government. The new deal will give Nova Scotia minimum annual payments of \$10,870,140 for five years.

Laramie's Condition Remains Unchanged

Over a week has gone by since George Laramie, Victoria's senior citizen of 110, was stricken with a stroke which has paralyzed his right side, but still there is no change in his condition.

Hospital officials said today he is "just the same."

Mr. Laramie was overcome while getting dressed last Thursday morning. Before that time he has always boasted he did not know what sickness was.

Walter Pura was fined \$35 and had his license suspended for one month when he appeared in Saanich police court Thursday before Magistrate H. C. Hall and pleaded guilty to a charge of dangerous driving at Carey Road and McKenzie Avenue.

Funeral Notice

PRO PATRIA BRANCH CANADIAN LEGION, B.E.L. Members of the Pro-Patria Branch, Canadian Legion, and the Women's Auxiliary, are requested to attend the funeral of our late comrade Sydney H. Burke, at St. John's Church, on Saturday, July 12, at 3 p.m.

C. A. GILL, Secretary.

Order Revision On School Tax Relief Program In B.C.

A further revision of the B.C. government's plan of school tax relief for landowners in rural areas of school districts has been instituted following the protests of organized groups, according to a reliable source at the Legislative Buildings.

Instructions have been issued by Premier John Hart for redrawing of the original plan but details for the new scheme have not yet been worked out. In the meantime provincial experts, by studying effects of the first proposals for relief, are looking for changes which rural taxpayers may find more acceptable. It is expected several weeks will pass before a revised plan can be presented to the cabinet.

The first relief scheme put out by the province at the request of Vancouver Island farmers, cattlemen from the interior of B.C. and other taxpayer groups offered a \$2,400 exemption on improvement taxes in unorganized territory and on farmlands in municipal areas up to a five-mill levy, and a \$2.50 an acre fixed assessment for cattle ranges, to cost the province an estimated \$300,000 in school district adjustments.

Protests on the first relief plan were vigorously made at the Legislative Buildings last week when a delegation from the Vancouver Island Ratepayers' Association, headed by A. D. Clelland, told the cabinet flatly the relief was inadequate and the government could not expect to see taxes collected unless some revision was made. Rural areas had been saddled with more than 50 per cent of the school tax burden, Mr. Clelland claimed before the cabinet.

Berry Growers Appreciate Rain

Island berry growers were happy men early this morning as they watched the sky cloud over and drops of rain began to fall. But their joy was short lived when the shower stopped within a short time.

Raspberries and logan crops reached their peak the middle of this week and are now beginning to drop off. Berry patches are all very dry.

Edward White, provincial horticulturist, said this morning a good rain would do a lot of good in bringing on the late berries.

C. M. Smith, area supervisor of the Dominion-Provincial Farm Labor Board, said, "A decent rain would certainly extend the picking season."

The amount of rain which fell this morning was described by William Burton at the Meteorological Observatory as "trace."

"The smallest measurable rainfall is one-hundredth of an inch. Anything below that is described as trace. Only a few drops fell this morning, he said."

Well-known Hardware Merchant Buried

LATE WM. J. NOBLE

One of Victoria's well-known hardware merchants, William John Noble, was buried Wednesday afternoon. He came to Victoria in 1913 and for 14 years traveled Vancouver Island for W. G. Fraser & Co. In 1927 he purchased a half interest in the B.C. Hardware & Paint Co., Ltd., which he disposed of last year.

Mr. Noble started the Hardware Store on Johnson Street in 1931. It was the first "cash and carry" hardware store in the west.

In 1933 Mr. Noble and his associates purchased the pioneer firm of Hickman-Tye Hardware Co., and he was secretary-treasurer of the firm at the time of his death. The firm opened new premises on Quadra Street in 1940 and later started a branch in Vancouver.

Mr. Noble was born in Brampton, Ont., in 1883 of U.E. Loyalist stock. Before coming to Victoria he worked in Toronto, Winnipeg, Maple Creek, Sask., and Vernon, B.C. He was a charter member of Confederation Lodge of Victoria.

Post Mortem Ordered In Johnson St. Cabin Tragedy

Dr. E. C. Hart, coroner, today ordered a post-mortem into the death of Harry Marr, aged occupant of one of the cabins at the foot of Johnson Street in the vicinity of the bridge, who died at 11 last night in Royal Jubilee Hospital suffering from a fractured skull.

The post-mortem is to determine extent of injuries and cause of death.

Marr was found in his cabin on July 3 in an unconscious condition. He was missed by one of his friends in an adjoining cabin for a couple of days and the door, bolted on the inside, was burst open. After finding

the unconscious man the city police were called. Sgt. Tom Banister and other city policemen attended and took the man to hospital.

Marr had been under the care of Dr. T. W. A. Gray in the hospital until his death, but he never recovered sufficiently to enable questioners to learn how he came by his injuries, which included several severe cuts on the head.

Police do not believe foul play brought about the man's injuries. The door was bolted on the inside and there were steel articles about the cabin against which a person could inflict serious injuries in a fall.

World War I Bandsman, Sydney Brake, Dies

Sydney Herbert Brake, 73, who during the First World War went overseas with the 67th Western Scots Band, and who between wars worked as a cabinet maker in the Red Cross Workshop here, died Wednesday at the Veterans' Hospital.

Funeral service for Mr. Brake, who had lived in Victoria 31 years, will be conducted Saturday at 3 from St. John's Church.

Former Victorian Resident Dies

Dr. Elizabeth Henrietta Denovan, widow of the late Howard J. Denovan, and who once resided in Victoria, died at her home at San Rafael, Calif., on July 3. Funeral services were held at San Rafael.

Dr. Denovan is survived by two daughters, Mrs. T. G. Norris of Vancouver, and Mrs. William Regelle of San Rafael; two sons, Howard and Joshua of Alameda, Calif.

Tourist Business Discussed At Club

The tourist business is one of the most highly competitive of all businesses. Every province in Canada and every state in the U.S. is trying to gain as many tourist dollars as possible. Ernest W. Evans of the British Columbia Travel Bureau, told members of the Oak Bay Kiwanis Club in the Beach Hotel Thursday night.

If British Columbia is to capture tourist dollars she must continue to expand and improve tourist facilities, the speaker continued.

In explaining the immensity of the tourist business, Mr. Evans stated that about \$250,000,000 would be spent by tourists in Canada during 1947. Of this total, British Columbia is likely to take \$50,000,000.

Mr. Evans stressed the responsibility of every citizen to help sponsor the tourist industry. "There is not a business, directly or indirectly, which does not gain material benefits from the annual influx of visitors," he said.

HMV RECORDS

for you to Choose

We have a complete selection, now on hand. These listed are but a few from the thousands of popular, classical and operatic numbers that pack our shelves.
